PRICE TWO CENTS

TALKING TO JURY

ARGUMENT IN THE DUNN CASE
WELL UNDER WAY.

PROSECUTOR EMRICK OPENS

STRONG PRESENTATION OF THE
STATE'S CASE.

THE DEFENSE HAS AN INNING

S. L. MORRIS MAKING ABLE
Plea FOR ACCUSED.

The Dunn murder trial rapidly ap-
proaches the last chapter.

It is not unlikely that by tomor-
row evening the fate of the aged and
white-haired prisoner, charged with
this foulest of crimes, will be under
deliberation by the jury.

Argument in the case began this
morning. Prosecutor Emrick opened
for the state in an address of three
hours to the jury. Mr. Emrick thor-
oughly recapitulated the evidence
and gave it strong presentation to the jury.

This afternoon Attorney Samuel L.
Morris, of counsel for the defense,
began an able and highly argu-
mentative plea for the venerable
looking man who is charged with
the atrocious murder of little Alice
Cothrell. Mr. Morris will finish this
afternoon, doubtless, and tomorrow
Henry Colerick will complete the
argument for the defense. Judge
S. M. Hench will close for the state.

MR. EMRICK OPENS.

Prosecutor Emrick made the open-
ing argument on behalf of the state
at the beginning of court this morn-
ing. In his opening words Mr. Em-
rick expressed his belief that it was
a matter of congratulation to all that
the case was nearing the end. It
had been a long and arduous labor,
but it was necessary to find out what
the witnesses knew, and if much of
the subject matter seemed to be re-
petition, it was unavoidable. Jurors
had, however, listened patiently be-
cause it was their duty as good citi-
zens to do so.

The state has only wanted to try
this case fairly. The state does not,
in this or any other case, ask a con-
viction not warranted by the law and
the evidence.

Mr. Emrick referred to the enorm-
ity of the crime, which he charac-
terized as one of the most atrocious
that ever occurred within the con-
fines of this fair county. It has not
been a pleasure to try this case; it is
not a pleasure for you to sit as jurors,
but it was a duty imposed by good
citizenship.

RESUME OF EVIDENCE.

Mr. Emrick then began a resume
of the evidence; told of the humble
home of the Cothrells; of the little
girl, who was the friend of all. He
recited how Alice had been seen to
enter the Dunn home at ten minutes
of 1 o'clock; it was shown that she
was a favorite of Mrs. Dunn, for
whom she often sang. It was shown,
said Mr. Emrick, that she sat upon
the lap of Marie Sampleson, and in
the goodness of her heart had taken
a breastpin from her person and of-
fered the settings to her friend. He
told how Marie had gone to Haire's
to take a loaf of bread there; that
a few minutes later the girl returned
to Haire's for water, and as she was
returning home the little girl was
noticed to leave the house and was
never seen alive again.

Mr. Emrick then detailed the
whereabouts of Dunn on the ill-fated
2d day of July, and asserted that the
proof showed Dunn to have returned
from the woods that day before 1:30
o'clock.

WHERE WAS DUNN?

Continuing, Mr. Emrick said:
"Where was Dunn during that thirty
or forty minutes? Ah, you know
where he was; I know where he was,
and if little Alice Cothrell were here
today she would say he was in the
barn choking the life out of her little
body. The testimony as to the
whereabouts of Dunn is positive.
Marie Sampleson's word does not
stand alone. She is corroborated by
prominent and substantial citizens."

Mr. Emrick said there was no evi-
dence to show that her parents knew
Alice was gone before evening of
that day, and continued: "But there
was one individual—I will not say
man—who was searching for that
child hours before she was known to
be gone; a man with hair of gray
that should be a badge of honor in-
stead of reproach.

"And when at eventide that mother
came to inquire for Alice, she was
told 'Yes, she was here, but she has
gone, long ago.' Gone! Ah, yes, he

knew how well she had gone; he
alone knew she had gone to the far-
away land and would live again only
in the memory of those who love her.

"And when later neighbors began
to search, this man took his lantern
and followed them out to the barn.
Why did he do this? Ah, it was
the fear that if he did not make it
apparent that he had made a search
of that barn, neighbors might find
in that building the body of that
murdered girl.

"Now when Cothrell and Read came
from Fort Wayne that night they
found that Dunn had suddenly
grown charitable toward them; some-
thing that had never occurred before
—he had placed feed and bedding
for the horses. Why did he do this?
Was it because that father in pre-
paring the bedding for his horses
might come upon the body of his
murdered child?

"Then came the search during
days which followed; they say they
used Dunn's horses and wagons. Ah,
they might have had Dunn's pocket-
book at this stage, of the affair if
they had wanted it! His refusal
then would have raised a storm of in-
dignation. And whatever else
Charles Dunn is, he is an oily, foxy
fellow.

"Did he do any searching on the
days that followed? None of conse-
quence, but instead he took occasion
to vilify and degrade the memory
of the missing girl."

Mr. Emrick went into great detail
in reviewing the testimony bearing
on the long search for the missing
girl and Dunn's reluctance to take
part in it, laying particular stress
on the statements of witnesses that
Dunn had asserted he had made a
search of his premises and had
dragged the cistern under his
kitchen.

"Every act of Dunn," said Mr.
Emrick, "was an effort to lead those
searchers to believe the girl was
thirty, forty or a hundred miles
away from Wallen. He thought he
was deceiving those people, but he
was mistaken. When someone said
to Dunn 'this is a mysterious case,'
he replied, 'If you knew as much
about the girl as I do there would
be no mystery.' Ah, yes; if they had
known what Charles Dunn knew
then the mystery would have been
cleared away."

Mr. Emrick referred to the fact
that Dunn had drunk water from the
cistern in the presence of Mrs. Mains
Saturday morning and said it was
solely for effect; that Charles Dunn
would have drunk anything short
of actual poison just then. The
prosecutor emphasized again and
again the attitude which Dunn man-
ifested toward the search, and said
that when argument had failed in
turning the searchers away on Sun-
day evening he then referred to his
wife's pitiable condition. "I speak
the name wife reverently," said Mr.
Emrick, "and I say here that had
Charles Dunn had the proper rever-
ence for his wife he would not be
under this charge today."

Mr. Emrick continued: "O, I can
see why Dunn used every pretext to
prevent that search; he knew just
what would be found there. When
the announcement was made that
they were going to search that cistern
Charles Dunn's death knell was rung.
I believe now that had it not
been for that crowd he would have
taken refuge in flight. I imagine
the thoughts that were flashing
through his mind; he was wonder-
ing whether the prints of his fingers
would be found upon little Alice
Cothrell's neck."

The prosecutor drew a vivid word
picture of the finding of the body,
the movements of the excited citi-
zens, and Dunn's actions during the
evening and the day that followed,
and said that Providence had wisely
provided in its mysterious way for
the discovery of crime and the bring-
ing of its perpetrators to justice. He
took up the testimony of Marie Sam-
pleson; told of her testimony that
Dunn had stood in the doorway at
the barn soon after she had heard
screams on Tuesday afternoon. He
spoke of Dunn's attempt to send the
girl to Toledo; told of the improb-
ability of any person having fallen
into the cistern accidentally, and
contended that no claim had been
made by the state in its opening
statement that had not been proven
by testimony. He attacked the tes-
timony of Dunn himself with much
vigor and later reached the expert
evidence given by physicians for the
defense, against which he directed
considerable effort. Dunn's charac-
ter then passed under review, and in
closing Mr. Emrick said:

"From the evidence testified to
upon the witness stand; from his
conduct up to the time the little
girl's body was found; from his slan-
derous talk about the girl and her
family; from his own admissions
upon the witness stand, I ask you to
judge the make of the man—Charles
Dunn."

LIGHT VOTE CAST

BUT DORMANT INTEREST IN
THE ELECTIONS.

COLD WEATHER A DRAWBACK

GREAT CONTEST FOR MAYOR IN
NEW YORK.

ELECTIONS IN THE STATES

OHIO IS POLLING A VERY LIGHT
VOTE.

Columbus, O., Nov. 5.—Election
day opened clear and cold. This is
the home city of the opposing gub-
ernatorial candidates and chief inter-
ests in this contest. Local
option matters are also attracting
much attention.

Reports from the state show fair
weather, although generally cold.
Reports from some close counties in-
dicate that the local committees and
workers were unusually active dur-
ing the forenoon. As both state
committees apprehended a small
vote, the local committees and work-
ers were instructed to be out early.

While it is claimed that the re-
publican state committee has had
more means than the democratic
state committee and perfected a more
complete general organization, the
local organizations of county com-
mittees are, as a rule, as strong with
one as with the other this year where
most of the county offices are at
stake. The work for county tickets
is affecting the general result more
than usual especially where sacrifice
bills are reported as in Cleveland, Col-
umbus, Toledo and other places.
These local complications will cause
the counting to be delayed some
times. The democrats say the early
returns tonight will be favorable to
their opponents.

The polls close at Cincinnati at 4
o'clock and elsewhere at 5:30. As
the republicans are considered in
better shape at Cincinnati than else-
where and as McLean carried Ham-
ilton county over Governor Nash two
years ago, the early reports from
Cincinnati will no doubt show such
republican gains as cannot be main-
tained elsewhere.

Cincinnati, O., Nov. 5.—With a
sharp frost, temperature lingering
about the freezing point and the sky
lightly overcast, the weather this
morning affords but little impetus
to political enthusiasm, but it also
presents but slight discouragement
to the indifferent voter. The scenes
at the polls indicate an ordinary
"off year" vote with perhaps a little
additional attention growing out of
the important local question of the
lease of the Southern railroad and
of the special attack made upon the
republican candidate for county au-
ditor. An average vote may be ex-
pected.

Cleveland, O., Nov. 5.—Election
day in this city opened cloudy, cold
and disagreeable. Notwithstanding
unfavorable weather conditions,
however, the voting was heavy dur-
ing the early hours of the morning.
A very large number of the ballots
cast were scratched. This will no
doubt lead to much delay in learning
the result tonight. The total regis-
tration is 60,758, which is up to the
average for "off" years.

Toledo, O., Nov. 5.—Weather cold
and cloudy and election progressing
without any unusual features. At-
tendance at the polls is normal and
no special interest is shown.

Youngstown, O., Nov. 5.—Election
day opened cloudy and cool. A bit-
ter factional fight on representatives
will probably result in a good-sized
vote being polled, although the early
morning voting was light.

Dayton, O., Nov. 5.—Election day
dawned crisp and clear. The early
indications pointed to a quiet elec-
tion and a light vote.

NEW YORK

New York, Nov. 5.—Election day
broke cold and cheerless. A driz-
zling rain was falling and a chill
wind swept the streets, and the early
vote was seriously affected. In
many of the up-town polling places
there were no voters on hand when
the boxes were opened at 6 o'clock,
and at others little groups that had
gathered earlier sought shelter from
the chilling rain. In the more
densely populated districts there
were crowds at the polls and at the
nineteenth election district in the
Sixth assembly district, of which

State Senator Timothy J. Sullivan is
democratic leader, 500 men voted in
the first forty-three minutes.

Seventy-five policemen were on re-
serve at police headquarters and two
patrol wagons were on hand, so that
men could be hurried to any part of
the city where they might be needed.
Beginning at 6 o'clock every police-
man except those who were actually
sick, was on duty, all leaves of ab-
sence having been recalled for the
day.

Richard Croker was the first man
to vote in the polling place near the
democratic club. His sons, Richard
and Frank, followed him in the or-
der named. Mr. Croker reached the
polling place at one minute before 6
and found a number of men waiting
to vote. The first three men gave
up their places in the line and Mr.
Croker and his sons cast ballots Nos.
1, 2 and 3. Seth Low, the fusion
candidate for mayor, voted at about
8 o'clock, and as he did so a score of
cameras were operated to make pic-
torial record of the act.

Scores of arrests for alleged viola-
tion of the registration and election
laws were made during the day by
the police, at the request of the state
election deputies, but a majority of
the men were discharged for lack of
prosecution. The election deputies
were provided with lists prepared in
advance and requested the arrest of
suspects the moment they appeared at
the polls. There was some disorder
during the forenoon, but none of it
was serious.

At 1 o'clock Chairman Robert C.
Morris, of the republican county com-
mittee, said: "At this hour the vote
is coming out heavily, which is a
good indication for us."

E. M. Shepard, candidate for mayor
on the democratic ticket, cast his bal-
lot in the polling place near his home
in Brooklyn about 11:25 o'clock to-
day.

Rainy, cold weather was the rule
throughout New York state, but in
the western counties conditions were
more pleasant. In many cities vot-
ing machines were in use, the result
being to expedite the registering of
ballots. At Buffalo there were indi-
cations of a great deal of scratching.
At Syracuse there were several ar-
rests early in the day of alleged il-
legal voters. As a rule county roads
are in good condition, and the vote
for members of the legislature is
likely to be up to the average of off
years. In the Twenty-fourth con-
gressional district there is consider-
able interest manifest in the election
of a successor to the late Rev. Albert
D. Shaw.

Early in the afternoon Richard
Croker sent the following telegram
to the district leaders of Tammany:
"I have received most encouraging
reports regarding the election. Tell
your captains to get out the vote."

PENNSYLVANIA.

Philadelphia, Nov. 5.—Election day
in Pennsylvania started with cloudy
and raw weather and a prospect of
rain in some sections before night.

Because of the great interest in the
result a heavy vote was reported in
the early hours.

The polls opened at 7 o'clock and in
this city many polling places report-
ed over 100 votes cast in the first
hour.

The state is voting for state treas-
urer and justice of the supreme court.
For the former office the candidates
of the two great parties are Frank G.
Harris (rep.) and E. A. Coray, jr.,
(rep. and fusion). William P. Pot-
ter is the republican candidate and
Harman Yerkes represents the fusion-
ists. The fusion ticket is the result
of a coalition between the dem-
ocrats, the union party and the
municipal league, the union party
being a new organization launched
by republicans dissatisfied with the
element now in control of state af-
fairs. Mr. Potter is at present a
member of the supreme court, having
been appointed by Governor Stone to
fill a vacancy. Mr. Yerkes is a dem-
ocrat and has been for a number of
years the common pleas judge of
Bucks county, which adjoins Phila-
delphia.

In Philadelphia the campaign was
an exceedingly warm one, the condi-
tions resembling those in New York
city, with the political affiliations re-
versed. District Attorney P. F.
Boethermel, having failed of renom-
ination by the republican convention,
was nominated in town meeting and
the union party, led by disappointed
republicans, was organized. His
nomination was endorsed by the mu-
nicipal league, and a failure to se-
cure a similar endorsement from the
democrats resulted in a split in that
party. John Weaver, who received
the regular republican nomination,
has made an active campaign on the
stump, and the effort of both sides
to obtain the suffrage of the voters
has been greater than in any cam-
paign in recent years. Associated
with Mr. Boethermel on the fusion
ticket are three republicans and two

TO SEIZE PORTS

FRENCH SQUADRON IS NOW AT
ISLAND OF MYTILENE.

WILL COLLECT THE CUSTOMS

NO APPEAL MADE TO BRITAIN
BY TURKEY.

ON STRENGTH OF OLD TREATY

BY WHICH INTEGRITY OF
TURKEY WAS GUARANTEED.

Paris, Nov. 5.—An official dispatch
announces the arrival of Admiral
Caillaud's squadron this morning at
the island of Mytilene.

Admiral Caillaud has occupied the
three principal ports of the island of
Mytilene.

SEIZES THREE PORTS.

London, Nov. 5.—According to a
dispatch from Paris to a news agency
here the French squadron has arrived
at Smyrna and has seized three ports
on the island of Mytilene.

The British foreign office has had
no request from Turkey, as an-
nounced by the Constantinople cor-
respondent of the Echo de Paris, to
fulfill the terms of the convention of
1878, by which, in exchange for the
island of Cyprus, Great Britain guar-
anteed the integrity of the sultan's
Asiatic possessions.

GOT HIS ORDERS.

Paris, Nov. 5.—Admiral Caillaud's
squadron arrived off the island of
Syria (Grecian Archipelago) yesterday
and detached a dispatch boat, which
entered the port of Syria and received
from the telegraph station a batch of
dispatches containing definite in-
structions from the French govern-
ment regarding carrying out the
sealed orders which were handed to
the admiral previous to his leaving
Toulon. These dispatches directed
Admiral Caillaud to proceed to the
island of Mytilene, where he will
seize the customs at Mytilene, and
at another port. The squadron is now
on its way to Mytilene and will
probably arrive at its destination to-
morrow.

The foreign office here has not yet
received the sultan's reply to the note
presented by M. Bapist, councillor of
the French legation at Constantinople,
following out the instructions of
M. Delcasse, the foreign minister,
under date of November 3.

MOTHER DESERTS HER BABE

MRS. FORDYCE LEFT CHILD
WITH A NEIGHBOR.

Then She Disappeared From the City
—Father Also Missing—Home
Found for Little One.

Some six weeks or two months ago
a family named Fordyce arrived in
the city and located at 228 Lafayette
street, where they entered upon a
somewhat turbulent domestic career.
The family consisted of Thomas For-
dyce, the husband; Margaret For-
dyce, the wife, and two children, a
boy aged about two and a little girl
aged about nine or ten months. The
father appeared to be a shiftless sort
of a fellow, not much inclined to
work, and considerably inclined to
drink when he had money. When he
was in liquor he was abusive to his
family and less than two weeks ago
Detective Coling was called to the
Fordyce domicile to adjust a family
row in which the husband was the
unprovoked aggressor. The patient
and long-suffering wife stood up for
her husband and refused to make any
charge against him, and after an ad-
monition the husband went away.
Shortly after this the husband and
father left the house, and without
intimating where he was going, bid
the folks good bye and said he was
not coming back. It is surmised he
went to Cincinnati. Mrs. Fordyce
bravely went to work, but was
obliged to place her oldest child in
the orphan's home, where it now is.
She struggled along as best she could
until Monday morning, when she
took her little babe to Mrs. Wagner,
at No. 8 Buchanan street, asking her
to keep it for her. The mother then
tied her few belongings into a bun-
dle, started north on Lafayette street
and has not since been seen. That
she voluntarily deserted her babe

there does not seem to be any doubt,
but that she believed she did what
was for the best is equally clear.
She knew she could not support her-
self and child, and knowing her baby
would be cared for in some way and
in a better way if she left it with
Mrs. Wagner, she went away. The
attention of the police was called to
the matter and in turn was reported
to Humane Officer Schlaudroff, who
had had dealings with the family
before. This morning he took the
little one and placed it in the charge
of Mrs. M. B. Gorsline, matron of
the children's home at 78 West De-
Wald street, where it will be cared
for until a home can be found for it.
In the meantime it is believed that
the little one's grandparents live at
Miamiburg, Ohio, and an effort will
be made to communicate with them.

BUY THE SHORDON BUILDING

FISHER BROS. MAKE HEAVY IN-
VESTMENT.

Property Situated at 61 and 63 East
Columbia Street—Will Remodel
the Building.

Fisher Bros., the well known paper
dealers, yesterday closed a deal for
the purchase of the Shordon building,
situated at 61 and 63 East Columbia
street, from Dan Shordon, for the sum
of \$8,000. The sale was made by di-
rect negotiations and not through an
agency.

The building is of brick and has a
frontage of forty feet, with a depth
of 110 feet. It is the intention of the
new owners to remodel the building
at once. Messrs. Fisher have closed a
deal with the Deering Harvesting
company, of Chicago, for a long lease
of the building and it is the intention
of that company to make Fort Wayne
a distributing depot for northern In-
diana and the adjacent portions of
Michigan and Ohio.

WILL ASK FOR NO MORE CASH

LIBRARY MUST BE BUILT WITH
ORIGINAL DONATION.

School Trustees Confer With Com-
mittee of Ladies and Gentlemen
Plans Must Be Altered.

Last evening the board of school
trustees met with the library com-
mittee to consider the advisability of
attempting to build the Carnegie li-
brary according to the plans sub-
mitted by Architect Grindle, which
will require at least \$20,000 or \$30,-
000 more than the amount of Mr.
Carnegie's donation. No scheme was
presented to raise the excess money
except in asking Mr. Carnegie to in-
crease his donation, which was
deemed inadvisable. There was no
division of sentiment on that point.
Besides the trustees, there were pre-
sent Mrs. Susan Hoffman, Mrs. C. B.
Woodward, Mrs. A. D. Guild, Miss
Katherine Hamilton, Miss Margaret
Colerick, Messrs. W. P. Brown, John
H. Jacobs, Rev. S. Wagnall, E. S.
Robertson, Charles McCulloch and S.
M. Foster. There was considerable
discussion pro and con, but no one
entertained the serious idea of asking
Mr. Carnegie for more money. The
trustees made no decision, but it is
more than likely that the architect
will be required to modify his plans
so as to come within the appropriation
or donation. This can be done,
as previously suggested, by eliminat-
ing much of the exterior stone carv-
ing and possibly by reducing the
building to a one-story structure.
As at present planned there are sev-
eral commodious assembly rooms pro-
vided for on the second floor, and a
number of the committee thought
that they were unnecessary in a li-
brary building. The trustees will
make a decision within a day or two.

CONTRACTED FEVER HERE.

Mrs. Lincoln Wilson, of Chatham,
Ont., a sister of Mrs. T. L. Staples, of
West DeWald street, died last week
at the hospital in Chatham and was
buried on Friday. Mrs. Wilson vis-
ited Prof. and Mrs. Staples in this
city about a month ago and while
here contracted typhoid fever. She
was taken home to Chatham, but
grew steadily worse and died last
Tuesday. Mrs. Wilson was the guest
of honor at a number of companies
here and was quite well known. Mrs.
Staples attended the funeral.

Mrs. E. Maude Weingardner has
taken a position as principal of the
Cleveland School of Elocution and
Oratory and will have charge of the
Shakespearean class.

MURDEROUS PLOT

MASSACRE OF AMERICAN GAR-
RISON PLANNED.

A WOMAN EXPOSED THE PLOT

TREACHERY OF NATIVES AT
TABLAC, LUZON.

TOWN OFFICIALS INVOLVED

PLANNED TO SET FIRE TO THE
BARRACKS.

Manila, Nov. 5.—A plot to mas-
sacre the American garrison at Mon-
cada, province of Tarlac, island of
Luzon, has been revealed by the
wife of one of the conspirators.

Several of the town officials are
implicated in the murderous scheme.
The woman who revealed the plot
hid a detective beneath a house in
which the leaders of the conspiracy
were meeting. Arrests followed and
many incriminating papers were
seized.

The plan was to set fire to a house,
close to the barracks, after dark, and
when the soldiers came out to assist
in extinguishing the flames, 150
conspirators, armed with bolos, were
to rush on the guard, capture their
arms and proceed to massacre the
garrison.

Commissioner Wright today took
the oath of office as vice governor.
He will be acting governor during
the convalescence of Governor Taft,
who probably will be unable to re-
sume his duties for some weeks to
come.

The United States Philippine com-
mission today passed the treason
laws, with slight alterations. Sev-
eral Filipinos spoke against them.

The newspapers here approve of
the appointment. The federalists are
holding a convention to arrange for
a petition to congress asking that
body to grant autonomy to the Phi-
lippines, with a governor appointed
by the president of the United
States, with veto power over the two
houses, the senate to consist of
thirty members, fourteen of them to
be named by the governor and six-
teen to be elected.

PRESIDENT VOTES AT HOME

GOES TO OYSTER BAY, I. I., TO
CAST HIS BALLOT.

No Notable Incident Attends the Act
—Return Trip to Washington
is Begun at Once.

New York, Nov. 5.—President
Roosevelt left Long Island City for
Oyster Bay at 9 o'clock. He was ac-
companied by Secretary Cortelyou,
Assistant Secretary Loeb and several
friends. The party rode in a special
train, consisting of a Pullman and a
combination car. The crowd at the
depot cheered the president as he
entered the train at Long Island City.
The train reached Oyster Bay at 10
o'clock. The president was cheered
as he stepped upon the station plat-
form, and a salute of twenty-one
guns was fired in his honor. He
entered a carriage, which conveyed
him to the polling place.

There was no notable incident in
connection with the casting of the
president's vote. Afterward the
president took a rapid drive to his
home on Sagamore Hill, Little Neck
Cove.

The special train left Oyster Bay on
the return trip at 11 o'clock. Those
who accompanied the president on the
trip to Oyster Bay were his cousin,
William E. Roosevelt, Dr. Holbrook
Curtis, W. J. Youngs, who was Mr.
Roosevelt's private secretary when he
was governor, and Secretaries Cortel-
you and Loeb.

Secret service and New York detec-
tives also accompanied the train.

BISHOP EDGALL INSTALLED.

St. Paul, Minn., Nov. 5.—At 11
o'clock today Rt. Rev. Samuel C. Ed-
gall, formerly of Chicago, but for the
past three years missionary bishop
of North Dakota, was formally in-
stalled as head of the Protestant
Episcopal bishopric of Minnesota
and Christ church in this city. Clergy
were present from all over the west.

Miss Gertrude Mayhew left today
for San Jose, Cal. She will visit
friends in cities on her way west.

ABOUT THE COURT HOUSE.

The county commissioners are in session today. Being the first day of the new term, granting of liquor licenses was the order of the day. There were twelve applications and no remonstrances.

The superior court is not in session this week, but will commence the new term next Monday.

John Harold, accepted at the Richmond asylum as an insane patient, was taken to that place at noon today by Deputy Sheriff Nierster and an attendant.

The transcript in the case of the state vs. Abraham Levy, fined in Tancay's court for performing common labor on Sunday, was filed in the circuit court this morning.

William K. Noble has commenced replevin proceedings against Robert Minick and asks for damages in the sum of \$50.

The treasurer's office is now undergoing the regular semi-annual sort of taxpayers, who all want to be waited on first or at the same time. The large office was completely crowded today.

Bessie A. Miller complains of Charles H. Miller, saying that she is his wife and that he has deserted her. The information was filed in the circuit court and a bench warrant was issued for his arrest.

The circuit court will adjourn for the term on Saturday next, provided of course, that the Dunn trial is then completed. The November term will commence on Monday, Nov. 12.

ABOUT THE CITY HALL.

The board of public works will meet in regular session this afternoon, but with the exception of several bills, no business of any character has been filed with the clerk.

A. C. Trentman has been granted a permit to erect a brick house on Superior street, at a cost of \$1,500,

and Henry Lullman has been granted a permit to erect a frame dwelling on Madison street, at a cost of \$1,200. H. C. Zollinger, of the board of works, has returned from a brief visit to Toledo.

The special council committee to investigate the intercepting sewerage has been called to meet again this evening.

Chairman Ehlman, of the special committee, appointed by the committee of the whole to report on incriminating technicals for Fort Wayne, hopes to get his committee together again on Wednesday evening, at which time a report will be formulated. A meeting of the committee of the whole will probably be called immediately thereafter.

SEVERAL ROBBERIES.

John St. Supran, a student of the University of Chicago, who had been arrested for robbing a man in the street, was released from the city jail today.

The first of the Douglas shoe store was a robbery of a room over the store. The room was burglarized last night and a number of shoes had been taken from it. The room is used as a receptacle for old shoes which had been left by customers who had never called for their remnants. The burglars evidently thought that the room was used as a storehouse for new goods, as the effects of the robbery were found in a nearby alley.

The other case reported was more serious. Mrs. L. D. Sweeney of 22 Baker street, reported that some one had entered her house yesterday and abstracted a purse containing about \$32. Mrs. Sweeney, who is the wife of Engineer Sweeney, of the Pennsylvania road, is the sister of the Third Presbyterian Sunday school and the money taken was the funds she had in her possession as such treasurer. The police department is investigating both robberies, but have not yet any clue.

Dr. White, of Laud, Ind., is in the city today. Dr. White made the trip from Laud in his automobile.

The Misses G. G. Smith entertained a few friends at a business party in a most enjoyable manner. The house was decorated with autumn leaves and willows, while the lights were all of the autumn shades. Pumpkins and very apples containing candies added much to the "witchy" appearance of the rooms. A ghost occupying a tent of willow disclosed the future, and everyone was sure to have seen his or her future mate after trying nearly every old-time trick. A luncheon of cider and apples, gingerbread, nuts and candy was served in the old-fashioned way.

NEWS OF THE POLICE.

This morning broke all previous records at police court on a Monday. There was not an arrest reported either Saturday or Sunday night, no disorder of any kind was reported yesterday or last night, and on Saturday a little family disturbance in Nebraska was the only thing to which the attention of the police was called, and that was a trivial affair. Last night and yesterday not a report of any kind was made to the station by officers or citizens. Superintendent Gersline says it was the most absolute water-tight in two days since he has been connected with the department.

IN JUSTICES' COURTS.

William Bickford was arrested on a warrant from Frances' court to answer to a charge of assault and battery preferred by his wife. The hearing of the case was continued until Nov. 12. The domestic trouble of the Bickfords have been manifold. Some months ago Mrs. Bickford filed for divorce, but the suit was withdrawn and the white-winger dove roosted again on the roof.

Several weeks ago hostilities were renewed and Mr. Bickford became the plaintiff in a suit for divorce, but the case has not yet come to trial. Although its trial may be precipitated by the later developments. Justice Buller was not in his office today, having gone to Jefferson township to attend the funeral of a relative.

WINTER'S CHILLY BLASTS.

The first real intimation that winter is at hand came yesterday and today overcoats and mitts are quite the thing. The drizzling rain which commenced to fall yesterday at noon was succeeded by a high wind from the northwest, which grew colder as the hours progressed. By midnight a thin coating of ice had formed on the puddles in the streets and soon the little pools on the sidewalks had frozen solid. The thermometer dropped steadily and reached the limit at 7 o'clock this morning, when it registered 21 degrees. The gas pressure was somewhat lower, but very few complaints of shortage were received. The readings of the thermometer at the gas office were as follows:

HEALTH OFFICER'S REPORT.

Health Commissioner Macbeth has made a brief compilation of the health statistics of the city for the month of October. It shows that there were 62 deaths from all causes during the month and of these only one was from a contagious disease—scarlet fever. There were 19 cases of scarlet fever reported during the month and three of diphtheria. The births did not quite keep up with the mortality, there being a total of 90 reported, of which 32 were males and 28 were females. The commissioner made 34 examinations of sputum (spit) for tubercle bacilli, of which 14 were positive and 20 were negative. Eight examinations of feces were made and of these three were condemned and five were pronounced potable.

ERECT A BIG BAKERY.

Adolph Katzenberg, who purchased the Scherer baking business some time ago, has decided to embark in the baking business on a large scale and recently purchased a lot 70x150 feet on Montgomery street, near Calhoun, upon which the new bakery will be built. The structure will be two stories in height, covering the entire lot, and will cost about \$15,000. The machinery will be of the latest pattern and will cost about \$10,000. Mr. Katzenberg will make bread and what is known as "baker's cake" exclusively. Plans for the building were made by Architect J. M. E. Riddell.

The total value of the manufacture of bricks and tiles in the United States in 1900 was \$76,336,871, and of pottery \$19,768,670.

GET BIG PRINTING CONTRACT.

ARCHER PRINTING CO. TO FURNISH DEERING CATALOGUE.

Big Harvesting Company Comes to Fort Wayne for Fine Printing—

Immense Lot of Work is Involved.

The largest single contract for printing ever lodged with a Fort Wayne printing establishment has just been concluded between the Archer Printing Company, of this city, and the Deering Harvesting company, of Chicago, for the printing of the latter's 1902 catalogue. It will be an illustrated catalogue of thirty pages, 8x10 inches, on heavy enameled stock. The total amount of paper stock required will be seven carloads and the contract involves a cost of \$18,000. The contract calls for 50,000 completed catalogues and the work will require from ten weeks to three months to finish.

The contract was awarded to the Archer Printing company because of the high reputation its work has achieved, and more particularly on the strength of the firm's well-known excellence in the production of fine half-tone printing. The award of this mammoth contract to the Archer Printing company is of general interest, as proving that Fort Wayne has a printing establishment that ranks with the best in the country.

FORESTERS WILL MEET.

There will be a district meeting of the Independent Order of Foresters in Harmony hall next Thursday and Friday. Delegates from Mount Vernon, LaGrange, Muncie, Wabash, Peru and Anderson will be in attendance. The meeting will be a purely business affair and it was called by W. S. Wells, of this city, who is one of the grand officers of the order.

An important change in one of the departments of the Russell hotel was made this morning when A. B. Jackson bought the stock and leased the fixtures of the hotel bar, making room and billiard hall and a truck and delivery possession. Some changes will be made in the working force and a manager will be appointed to look after his interests, as Mr. Jackson will be unable to give the place his personal attention.

A DRIED CUP OF COFFEE.

For soldiers' use, and for employment under circumstances where fresh milk, coffee and chocolate are not easily obtainable, a dried preparation is now being manufactured which serves excellently as a substitute. Skimmed milk is evaporated by the help of an air blast to the condition of a paste, and, after being dried, is reduced to powder by grinding. Then it is mixed with powdered chocolate, half and half, and is either put up as dust or compressed into cakes. When wanted, water is added, the resulting fluid is boiled, and all that is needed is a little sugar.—Saturday Evening Post.

is our Columbia Air Tight Heating Stove. The all sheet metal construction with the top, bottom and jacket double-seamed, is essential to the success of the air-tight heater. No stove can be made air-tight that has cast bottom and top or with door in front, or lower cast draft fastened to stove with bolts or rivets, as seams open where joints are made, rendering them useless as fire keepers. The Columbia draft is fastened to the body of the stove with a patent sheet metal connection which makes an everlasting tight connection, as it causes the draft to expand and contract with the body of the stove. \$3.00 buys one.

It is a good plan for every bather to know something of the soap he uses. There is a well-founded objection to using a floor-cleaning soap upon the human body. Ivory Soap is the bather's soap. It costs more than common soaps, but the difference is in the ingredients and making. Why not treat yourself with a little respect. Is not the human skin with its marvellous delicacy entitled to pure soap? Ivory Soap—it floats.

VALUABLE MARE DEAD.

Mary Centlivre, a valuable mare belonging to W. M. McKinnin, died Sunday morning in giving birth to a colt. The mare was found dead in her stall by a farm hand, but the foal was alive and a nurse was immediately secured from the Centlivre stables. The foal is sired by Crenous, the greatest trotting horse in

the world, and if it survives will be worth a small fortune. Mary Centlivre is from the Centlivre stock and is a sister of Atlantic King, the dam of both being Carrie Blackwood. Mary Centlivre's sire was R. C. Brown, by Florida, by Hambletonian, and she had a record of 2:05, made on the Fort Wayne track, driven by Frank Bognash.

PERUVIANS ARE SORRY.

(Peru Chronicle.)

The Carnegie donation of \$75,000 for a public library at Fort Wayne is not big enough to suit the architect and the building board and they propose to ask the donor for an additional \$15,000. As in the first bidding in this city, the proposals for construction were too high. Here all bids were declared off in consequence and a second bidding was invited. At Fort Wayne the bids were also too high, but instead of asking for second proposals, the building board will ask Mr. Carnegie for an increased donation to square the building with the architect's designs. Now, it is expected that the Peru board will kick itself for not having as much penetration and gumption as the Fort Wayne board.

TAKE THEM OUT.

Or Feed Them On Food They Can Study On.

When a student begins to break down from lack of the right kind of food, there are only two things to do; either take him out of school or feed him properly on food that will rebuild the brain and nerve cells. That food is Grape-Nuts.

A boy writes from Jamestown, N. Y., saying: "A short time ago I got into a bad condition from over-study, but mother having heard about Grape-Nuts Food, began to feed me on it. It satisfied my hunger better than any other food, and the results were marvelous. I got fleshy like a good fellow. My usual morning headaches disappeared, and I found I could study for a long period without feeling the effects of it."

"After I had been using Grape-Nuts-Food for about two months I felt like a new boy altogether. My face had been pale and thin, but is now round and has considerable color. I have gained greatly in strength as well as flesh, and it is a pleasure to study now that I am not bothered with my head. I passed all of my examinations with a reasonably good percentage, extra good in some of them, and it was Grape-Nuts that saved me from a year's delay in entering college."

"Father and mother have both been improved by the use of Grape-Nuts Food. Mother was troubled with sleepless nights, and got very thin and looked careworn. She has gained her normal strength and looks and sleeps well nights." Don E. Cooper.

Today will determine just to what degree Croker and Tammany are supreme in Greater New York.

The murmuring to Great Britain against the war burdens is assuming the volume of a roar. It seems to be incumbent upon Mr. Kipling to write another poem on the soothing topic of "Pay, Pay, Pay."

We commend the spirit of the people of the little village of Poe and vicinity to the people of Fort Wayne. When the Poe folks heard an interurban road was headed for Fort Wayne and might possibly be induced to include that village in its route, they promptly set about it to have the thing done.

Meanwhile, the evidences multiply that Fort Wayne is sooner or later to be the important center of many interurban railways. Why does not Mayor Berghoff, the board of public works and the city council get together and attempt to give the people of this city some practical solution of the whole problem of interurban entrance and terminals? If there is any line along which more important public service can be rendered, we trust the administration and council are at work upon it.

It looks very much as though Turkey had "gone against the real thing" this time. The French fleet has its orders to seize a port and take possession of the custom house, which probably by this time has been done. The situation is one that the sultan doubtless will be forced to arrange himself the best he can. There

is no special opportunity for outside interference, if any of the powers wished to interfere, which in this case seems not to be at all the case. Most of them have bills they would like to have settled and doubtless some of them will take counsel of the firm action of France and help themselves to what they can get.

THE TRADE OF THE WORLD.

The treasury department has prepared an interesting statement of the monthly trade of the thirty leading nations of the world for September, which shows that one-third export more than they import and twenty import more than they export. Naturally attention is first directed to the figures for the United States and the United Kingdom, the two great commercial countries. Their exports are practically the same, although the advantage is with the United States. On imports, however, where the United Kingdom buys nearly \$208,000,000 worth, the United States purchases but \$72,000,000 worth. In other words, where the United States' imports amount to something more than half its exports, the imports of the United Kingdom reach almost twice the value of its shipments.

Germany and France also exceed the United States in imports. Cuba's exports and imports are about equal, with imports very slightly in the lead. In the Philippines there is an excess of imports of about half a million.

The list of countries shows many striking contrasts. The ten which have greater exports than imports are: Argentina, Austria-Hungary, Brazil, Chile, British India, Mexico, Roumania, Russia, the United States and Uruguay. The twenty whose imports exceed their exports are: Belgium, Canada, the Cape, China, Cuba, Denmark, Egypt, France, Germany, Greece, Italy, Japan, Holland, Norway, the Philippines, Portugal, Spain, Switzerland, Turkey and the United Kingdom.

KITCHENER GIVES DETAILS

THINKS BOER LOSSES HEAVY IN LAST BATTLE.

Says Boers Took British Guns Under Cover of British Ambulance—Wounded Badly Treated.

London, Nov. 5.—Lord Kitchener in a report to the war office under date of Nov. 4, giving further details of the recent engagement near Brakmelaag, eastern Transvaal, between Colonel Benson's column and the Boers, says:

"The Boers were unable to remove the guns they captured until a British ambulance went out, when, under cover of the ambulance, the burghers carried them off. Two Boer losses were undoubtedly heavy, but no correct estimate of them is obtainable. Commandant Opperman was killed and Chris Botha was wounded. The Boers are reported to have behaved badly to the British wounded."

Lord Kitchener further reports that Cape Colony to the eastward of the Western railway is cleared of Boers with the exception of the Feuchte-Myburg-Wessels command, of 400 men, with which General French is dealing.

COMING TO AN END.

The World in Its Latter Days.

This subject is of serious importance to all, but should not cast a gloom or shadow or even a passing uneasy thought in the mind of any one alive today, as the most profound and sincere Bible student has only been able to approximately locate the final dissolution of the world and simply states that we are living in the latter days, which, if he is right, may mean a long life for generations of men yet unborn. But trouble and possibly the end is near at hand for thousands of us that are going on in the old way, neglecting the proper treatment of the body or using the old remedies that simply relieve and do not cure.

Peptorene, the Health Tablet, is a comparatively new remedy especially adapted to the cure of dyspepsia, indigestion, constipation and all other troubles arising from a disordered stomach. These tablets are composed of remedies that act directly upon the organs that constitute the digestive tract, aiding the stomach to perfect digestion, clearing the liver of all poisonous bile, and working like magic on the clogging, congested, constipated bowels. There is nothing that so fortifies the system against all troubles arising from extreme atmospheric changes that we are always subject to in a climate like our.

TO ENLARGE HOPE HOSPITAL

PROPERTY WILL BE BONDED FOR \$20,000.

Present Accommodations Insufficient—Annual Meeting Held Last Evening.

The annual meeting of the officers of Hope hospital was held last evening in the parlors of the hospital, and much business of importance was transacted. Ten directors, whose terms had expired, were re-elected for three years, and Van B. Perrine was elected to a vacancy in the board for a period of two years.

Owing to the pressing need for more room, it was decided to make an addition to the hospital, and the property will be bonded in the sum of \$20,000. A committee consisting of Messrs. Charles McCulloch, S. B. Bond, H. C. Paul, S. M. Foster and J. F. W. Meyer was appointed to secure subscriptions for the sale of the bonds. It is probable that another story will be added to one of the buildings, as eight additional rooms could thus be secured. The hospital has been filled to its utmost capacity for some time and it is impossible to handle emergency cases on account of the crowded condition of the wards.

The reports showed the condition of the hospital to be most prosperous. The running expenses of the institution for the past year have all been paid and the only debts outstanding are those incurred in the erection of the new buildings. The reports were most satisfactory in every way and the directors feel much encouraged over the outlook.

GRADING BEGAN MONDAY.

(Bluffton News.)

Workmen began this morning on the grade of the electric line which is to connect Bluffton, Muncie, Hartford City, Fort Wayne, Montpelier and other points. November 1 was the date set, but this fell on Friday and superintendence says that no great work should be started on so unlucky a day. The grade work, much of which has been let out by contract, will begin between this city and Hartford City. The roadbed will then be completed to the north of Hartford. It is the intention of the company to complete the entire line, as far grading, by next spring, when the material will be shipped, and the line placed. The order for the rails has been placed and other material has also been contracted for. The completion of the grading will admit of the laying of the rails and the completion of the road on short notice, after the arrival of the material. Of all the railroad projects that have come before Bluffton this is the only one likely to succeed. It will not be surprising to see an electric line headed into Fort Wayne next year.

NEGRO BURNED AT STAKE FOR ASSAULTING A WOMAN.

Captured, Forced to Confess Tried by the Mob, Taken to the Scene of Crime and Cremated.

Gulfport, Miss., Nov. 5.—A negro, whose name has not yet been learned, was burned at the stake in Perry county, Mississippi, Saturday night. The crime for which the negro suffered was committed early in the morning and Mrs. Fortenberry was the victim. She is the wife of one of the most prominent men in that section. She was attacked, beaten into unconsciousness and criminally assaulted by the negro. After recovering consciousness while yet almost too weak to move, she began crying for help. Within a short time assistance reached her. She told the story of the crime and described the negro. A posse was organized and search was begun for the criminal. A negro answering the description given by Mrs. Fortenberry was caught, taken and identified by her. She stated positively that he was the man who had committed the crime. The negro then made a confession telling all the details he had previously denied. An informal court was organized by the members of the posse. The trial resulted in a decision to burn the negro. He was carried from the house to the exact scene of his crime and there burned at the stake.

"A year ago my wife had rheumatism in her hand and fingers so that she could not close them. She took two bottles of Smith's Green Mountain Renovator and it cured her. I have had trouble with my back for two years, so that it hurt me to ride, and I could not sleep nights. I was tired out all the time. I sent out west for a kidney medicine and it made me worse. I finally tried your Smith's Green Mountain Renovator and have taken nine bottles. It has absolutely cured me. I will vouch for your Renovator.

Respectfully yours,
E. J. DILLARD, Postmaster.
Here is what Mr. Dillard later wrote us:

"Some time ago a lady in Fitchburg, Mass., asked me if I wrote that letter. I told her I did, and could stand by it, too. A good thing is worth its price."

We can add nothing to Mr. Dillard's words except to say that every bottle of Smith's Green Mountain Renovator is guaranteed by our agents to benefit or money refunded.

LIGHT VOTE CAST

(Continued From First Page.)

democrats, who are candidates for the various local offices to be filled.

MARYLAND.

Baltimore, Nov. 5.—When the polls opened in this city at 6 o'clock this morning many voters were in line at most of the precincts, and by 8 o'clock a fairly heavy vote had been cast. The new election law does not appear to have proved much of a drawback so far as the early voters are concerned, the average time consumed in each case being less than a minute. The usual percentage of colored voters were in line and no great falling off in that direction is looked for in the city.

The polls opened in the counties at 8 o'clock and advices from points outside of Baltimore show about the same conditions that exist here. The skies are overcast and the air is damp and chilly, with prospects of rain or snow before the day is over. Fully 75 per cent. of the registered vote had been cast at 1 o'clock, with indications that the democrats have made such gains in the city and state as to insure the election of their ticket. While there is some doubt as to the result in the city, there seems to be but little in the counties, all advices indicating democratic victory in the doubtful districts. The republicans are inclined to concede democratic success in two of the three legislative districts in Baltimore city and the indications point to a democratic majority in the legislature, which means the re-election of Mr. Gorman as United States senator.

NEBRASKA.

Omaha, Neb., Nov. 5.—The weather in this city this morning was clear and bright, following a fall of one inch of snow last night. The polls were open at 7 o'clock and the early morning voting was fairly heavy. The registration was comparatively light and after the laboring classes had voted the balloting was slow. There was no excitement and the detail of special police officers scattered throughout the city had little to do.

COLORADO.

Denver, Col., Nov. 5.—The weather is fine and all the conditions are favorable for bringing out a large proportion of the registered voters in this city. The election has been hotly contested and both the republicans and the democrats claim to be confident of winning in this county. Special officers appointed by the fire and police board (democratic) were present at all the voting booths this morning and Mayor Wright issued a

proclamation declaring that the democrats intend to resort to fraud and appealing to citizens "to serve as a posse comitatus for the sheriff in the event that it is necessary for him to call upon the good people of the city to assist him in arresting those who are guilty of the commission of crimes against the ballot."

KENTUCKY.

Louisville, Ky., Nov. 5.—The election was begun in Louisville and over the state with the weather crisp and biting. The first hour in Louisville found very few voters at the polls, and no rush is expected much before noon. About the only important doubtful contest in Kentucky is that for mayor of Louisville, with indications rather favorable for Granger, the democratic nominee.

NEW JERSEY.

Trenton, N. J., Nov. 5.—The capital is practically deserted today, all the officeholders having gone home to vote in what is conceded to be the hardest fought election in New Jersey in many years.

Reports from southern New Jersey indicate a heavy vote by both parties. In Cumberland county factional differences have been settled in the republican ranks and the chances are considered excellent for the election of B. H. Minch for state senator.

Of the seven state senators to be elected republicans claim victories in Bergen, Mercer, Ocean, Cumberland and probably Morris counties.

Newark, N. J., Nov. 5.—The election is proceeding quietly. At the republican state headquarters confidence was expressed in the success of Franklin Murphy, candidate for governor, while at the headquarters of the James M. Seymour association the election of Mayor Seymour, Mr. Murphy's opponent, was declared to be assured.

Princeton, N. J., Nov. 5.—Former President Grover Cleveland cast his ballot at Chamber street polling station at 10:45 o'clock today.

MASSACHUSETTS.

Boston, Nov. 5.—With a crisp frosty fall morning the vote here during the early hours was hardly above the average, although the registration had been unusually heavy. Reports from other points during the forenoon indicated that in many sections the vote was light. Where there were local fights, however, there was promise of larger figures. It was believed that the total vote would be between 280,000 and 300,000, with a republican plurality of from 30,000, the democratic concession, to 50,000, the republican claim. For the first time since 1895 the democrats were united, but it was the claim that the return of the disaffected ones to that party would be offset by the democratic votes which Governor Crane would draw because of his attitude of sympathy toward organized labor.

VIRGINIA.

Richmond, Va., Nov. 5.—Advices regarding the election in the state are coming in slowly. The weather is cold and raw. This probably will cause some falling off in the local vote, but is not likely to affect the general result. Indications are that the democratic ticket will be successful.

RHODE ISLAND.

Providence, R. I., Nov. 5.—Very little activity characterized the early hours at the polls in the state and municipal elections in Rhode Island today and the indications were that a small vote would be cast. The election of the republican ticket is considered certain, although by a greatly decreased plurality.

Break Jeweler's Show Window and Seize Jewels Worth \$20,000—Gems Scattered in Street.

Cincinnati, O., Nov. 5.—Burglars broke the big show window of the Duhamel Jewelry company's store on Fourth street between Vine and Race early today and stole \$20,000 worth of diamonds. In their flight they left a trail of diamonds indicating the direction they took. The diamonds stolen were loose on a tray. The night watchman says he heard no noise and saw nothing of the robbers and it is supposed they took advantage of the noise of a passing wagon or car to break the glass, seize the tray and run.

ABOUT THE COURT HOUSE.

Sheriff Stout was last evening notified that Jacob Fink, the famous Leo blacksmith, was again in one of his ugly tantrums and was threatening to demolish everything in the neighborhood. Deputies Reichelderfer and Daseier were immediately sent to Leo, where they captured Mr. Fink after the exercise of a little strategy, and safely landed him in jail about midnight. Fink is a character and has been adjudged insane at least twice. Until recently he was confined at the county asylum, but was let go because it was thought that he had regained a normal mental equilibrium. He has been a bad actor for several days and yesterday for the first time in his life, directed his onslaughts against his wife, whom he run out of the house, threatening to kill her, and did attack her with a board. It is quite likely that he will again be sent to the county asylum.

Myrtle Lingle, who was taken into custody a couple of weeks ago on order of the board of guardians and released is again an object of the board's solicitude. The sheriff has been requested to bring her in, when an effort will be made to care for her permanently. The girl is not exactly an incorrigible, but her associations are bad.

The county commissioners transacted miscellaneous business today. Tomorrow is bill day. Contractor Andrews is expected to arrive in the city today with one of the large pictures to be placed in the

dome of the court house. The pictures are allegorical and are painted on canvas, which will be cemented on the walls of the dome, producing a much better effect than if they were painted directly on the walls. Jury Commissioners Henry Hild and William A. Spindler this morning drew the following jury for the November term of the Superior court commencing next Monday: James Johnson, Lake township; Mason Swank, Pleasant; George W. Miller, Lafayette; William Lamley, Lake; Grant Archer, Washington; William Roembke, Maumee; Fred Gallmeyer, city; George Snyder, Springfield; Alva C. Sisor, Eel River; Jerry Grabner, Jackson; J. F. HANNA ENDS TALK

FIRST GOVERNMENT SPEECH IN SCHLEY CASE OVER.

REVIEWS THE TESTIMONY

CAPT. PARKER BEGINS ARGUMENT FOR THE ADMIRAL.

A CASE WITHOUT PRECEDENT

VICTORIOUS COMMANDER PUT ON TRIAL.

Washington, Nov. 5.—Mr. Hanna continued his argument when the Schley court of inquiry convened at 11 o'clock this morning. He began where he had left off yesterday, and after briefly referring to the retrograde movement, the discussion of which he had entered upon yesterday, he took up the question of the coal supply of the flying squadron, and from that entered upon a discussion of the blockade of Santiago, and the reconnaissance of May 31, when the Spanish ship Colon was bombarded as she lay in the harbor of Santiago. As on yesterday Mr. Hanna spoke in calm and dispassionate tones, and generally contented himself with outlining his conception of the purport of the testimony.

The understanding at the beginning of today's proceedings was that Captain Parker would follow Mr. Hanna in Admiral Schley's behalf, and while he gave no definite intimation as to how long he might speak, it was generally supposed that he would conclude today, allowing Mr. Raynor to proceed tomorrow.

Admiral Schley reached the court room at an early hour, and his friends were gratified to find that the severe cold with which he suffered yesterday had greatly improved.

Mr. Hanna briefly reverted to the cruise of the flying squadron from Cienfuegos to Santiago for the purpose of showing that neither the Vixen or the Merrimac had been the cause of the delay on that voyage.

Mr. Hanna concluded his speech at 2:25 p. m., having spoken about four and a half hours. He said that he considered the inquiry a serious proceeding and the question involved most important, and concluded with thanks to the court for its attention and to counsel for courteous treatment.

Captain Parker then began his address in support of Admiral Schley. He stood at counsel's table and spoke in clear and distinct tones. "I doubt," said Captain Parker, "if the naval history of the world presents or ever has presented a case of the importance and character of that in which we have so long been engaged. I doubt if a tribunal more exalted in the character of the persons who compose it has ever sat in judgment upon a brother officer. I doubt if an officer, with the lifelong character and standing and conduct that Admiral Schley has always displayed was ever called upon before to ask an investigation of his conduct as a victorious commander of a fleet."

FOUND BODY IN A BARREL

MAN MURDERED AND TROWN ON CHICAGO DUMP.

Body Identified as That of an Italian Laborer—Death Likely Result of a Vendetta.

Chicago, Nov. 5.—The body of a man about thirty years of age, whose head had been almost cut off, was discovered in a flour barrel on a strip of prairie near Rice street and Western avenue early today. The victim's feet were securely bound together, and the body doubled in a sack, from which it was apparent that his slayer or slayers had experienced difficulty in forcing the body into the barrel. Beside the wound in the neck the face had been gashed and disfigured.

Two laborers discovered the body. They immediately notified the police, who, after investigation, advanced the theory that the man had been murdered last night. The victim is believed to be Antonio Napoli, who, with twenty-five other Italian laborers, reached Chicago last night from Iowa Center, Iowa. Napoli cannot be found. The address, "Salvador and Luigi M. Nigro, 402 1/2 Clark street," was found on a letter in the dead man's coat. On this firm's books was found the name "Antonio Napoli," and his address was given as "Box 453, Livermore, Iowa."

In one of the pockets of the clothing was found a silver dollar. Chief of Police O'Neill says he believes robbery was not the motive for the crime, but the man had been the victim of some vendetta.

INJURIES RESULT FATALLY

HARRY L. MORITZ DIES FROM CONCUSSION.

Was Hurt in a Runaway Accident Last Tuesday—Other Deaths and Funerals of the Day.

Harry Moritz, of 180 Washington boulevard, died at 6 o'clock last evening from concussion of the brain, the result of injuries received in a runaway accident last Tuesday. In company with Bert Stauffer Mr. Moritz was out for a drive on the day named, when their horse became frightened on Elizabeth street, near the pumping station. The buggy was overturned and the occupants were thrown violently to the ground, Mr. Moritz striking on his face.

He was conveyed to his home in an unconscious condition and but for a few minutes on Wednesday remained in a state of coma until his death. The fall caused concussion of the brain and death resulted from the formation of a blood clot on that organ.

When in the city she was the guest of Mrs. Charles McCulloch.

CHEMICAL CATHARTICS

Scrape, Irritate and Derange the Stomach and Intestines.

The most expert chemists in the world can at best do no more than irritate nature and in most cases even these painful and scientific make a very crude job of it.

In a state of nature man goes to nature for his medicine. Roots, herbs and the waters of different springs provide him with his tonics and laxatives, his curatives and correctives.

But most of us live very far away from a state of nature and in trying to prepare substitutes for her remedies we very seldom catch her formula.

With laxatives and tonics we are all very apt to go wrong. We can, of course, remove dirt from our skin by scraping it off with a knife, but we know that soap and water are vastly better. We can also scrape out our stomach and bowels by means of chemical cathartics—pills, tablets, powders, etc.—but the effect is even worse than scraping off the dirt from the skin with a knife; and you can never remove all the dirt with either method.

Nature, in her own way, deep down in the earth, stored up centuries ago all the elements needed by humanity for the preservation of health and the elimination of disease. Many years ago the storehouse of health as discovered, more than half a mile below the surface at Alma, Mich., and the waters coming from this wonderful spring have been used for more than ten years in thousands of different cases at the Alma Sanitarium—of which everyone knows the fame. From this water by means of evaporation alone, are produced Alma-Bromo Salts in just the form which nature intended her remedy to be used. Effervescent cooling, pleasing to the taste, Alma-Bromo Salts acts as a gentle laxative, thoroughly cleansing the stomach and bowels, increasing the action of the liver, and the kidneys, and toning up the whole nervous system through the form of bromide which it contains. Cures Indigestion and Constipation; gives a healthy appetite.

Nature-made—pleasing to the palate—gratifying to the whole body.

THE MARKETS.

Chicago, Nov. 5.—December wheat opened a shade higher at 71 1/2c on higher cables with a fair commission house demand and very little offered in the pit. Trade was not large, but in sympathy with the firm tone of corn December rose in the face of large receipts and sold early at 71 1/2c. Toward the end of the first hour the market broadened somewhat and the outside demand improved. There was some changing of December for May and these two deliveries stood about 3c apart. Local receipts were 212 cars, 3 of contract grade. Minneapolis and Duluth reported 919 cars, making a total for the three points of 1,131 cars against 1,109 last week.

Strength in the corn pit, reports of Russian and Argentine shortages and the removal of the Mexican import duty on wheat influenced a steady advance in wheat, December closing strong, 1 1/4c higher, at 72 3/4c.

December corn eased off at one time to 58 3/4c@58 1/2c, but renewed covering brought a firm close, 5 1/2c higher at 59 1/2c.

Corn continued in its upward trend of the past few days, buoyed up by improved cables, and December opened 1/4c@1/2c higher at 58 3/4c to 59c. At the outset there was as much of this cereal offered as was wanted, commission houses buying and the crowd selling. Receipts continued light and prices went before still up. It was not long before the crowd in the pit found that corn was scarce and shorts had to buy back the lines they sold early. Added to this was a good outside demand which brought December up to 59 3/4c. Receipts were 148 cars.

There was little doing in oats, December opening unchanged at 37 1/2c. Trade was narrow, but on the corn bulge December sold up to 37 1/4c@37 3/4c. Receipts were 262 cars.

Provisions opened heavy on lower hog market, but recovered quickly on a fair local demand. Offerings early were small and though business was largely professional January pork, which opened 15c lower at \$14.02 1/2@14.65, sold back to \$14.75; January lard 2 1/2c down at \$6.47 1/2 and reacted to \$6.52 1/2, and January ribs 2 1/2c@5c down at \$7.60 and advanced to \$7.62 1/2@7.65.

IN JUSTICES' COURTS.

It is not probable that the assault and battery case preferred by Anna Bickford against her husband, William Bickford, in France's court, will ever come to trial. Mrs. Bickford yesterday afternoon secured a divorce and this morning the two parties to the suit met to divide their household effects and clothing. Mr. Bickford refused to go alone, saying that if he did his ex-wife would swear that he had abused her, and he accordingly took Officer Dickson with him to see that he committed no breach of the peace. The division was made without trouble and the Bickfords parted on as good terms as divorced people could be expected to be and it is likely that the criminal proceedings will be dropped.

A saloonkeeper named Diertine, doing business on Broadway, was fined \$1 and costs by Justice Huser for assault and battery on "Shorty" Gross.

S. W. Stirk circle, Ladies of the G. A. R., will give a tea Thursday afternoon at the home of Mrs. Rose Seely, 195 Sherman street.

HEINE SURPRISED

FRIENDS CALL TO CELEBRATE HIS BIRTHDAY.

THEY GIVE HIM A WATCH

AND ENJOY THE HOSPITALITY OF HIS HOME.

NEWS OF THE SHOP AND RAIL

BRAKEMAN WELCH NARROWLY ESCAPES SERIOUS INJURY.

Henry Heine, the popular boiler-maker in the Pittsburgh round house, now refers to a handsome new gold watch when he wants to know the time of day. The ticker was presented to him last evening by a number of his relatives and friends as a token of the regard they entertain for him and as a memento of his forty-sixth birthday, which was yesterday. The party was a surprise to Mr. Heine, and while it proved to be a most enjoyable affair, a little incident occurred which was not taken into consideration when the affair was planned and which came near upsetting the whole thing. In the afternoon Mr. Heine was sent out on the road to repair some machinery and he did not return until 10 o'clock last evening. In the meantime all the guests had assembled and were awaiting the coming of Mr. Heine. When he appeared on the scene the presentation program was rushed through with all possible speed and then the host and his uninvited guests sat down to a feast prepared by the ladies of the house, and later had one of the most enjoyable times of their lives in playing games and participating in the many amusement features introduced. Mr. Heine is one of the best fellows on earth and his friends always respond to an invitation to call at his home, and last night there were many of them there.

ON AN INSPECTION TOUR.

John Grafton, a foreman in the Pennsylvania shops at Wellsburg, is in the city today looking over the company's shops and taking notes of the methods of conducting the work therein. He will visit all the company's shops, both on the northwestern and southwestern systems, on a similar mission. While in this city Mr. Grafton is the guest of Boiler Foreman Frank Sarver and his wife.

A BRAKEMAN INJURED.

Brakeman W. B. Welch, of the Pittsburgh, fell headlong from a box car to the front steps of a caboose yesterday while the train was near Adams and running at the rate of twenty-five miles an hour. He was brought to the city and Dr. Stemen attended him. Mr. Welch's injuries are some pretty painful bruises and cuts on the head and shoulders. He resides at 214 Calhoun street.

A QUEER EXPERIENCE.

Pittsburg trainmen tell a queer story about one of the men who was in the wreck at Donaldson hill last Friday. Ed Obenchain, it is stated, was caught in the wreckage and was found unconscious by the rescue party. To all appearances he was dead, and the men who discovered him believed so. They pulled him from beneath a pile of timbers and laid him on the ground at the road side. In a moment Mr. Obenchain got up, looked at his hands, stretched his arms aloft, lifted his feet one at a time, and carefully examined them, and then said: "Well, boys, I'm not hurt," and he was not. He received a blow on the head which rendered him unconscious for a short time. This is the story as told by the men who were on the scene and helped to get Mr. Obenchain from beneath the wreckage. Early news from the wreck mentioned Mr. Obenchain among the missing.

GONE TO OHIO TO VOTE.

The carpenter and bridge department of the Pennsylvania at this point is short of men today on account of the elections in Ohio. Many of the men employed in that department reside in Ohio and most of them have gone home to vote. Included in this class are D. J. Musser, of Bucyrus; John Bindle, of Delphos; Ed Conn. John Davis and A. Hadley, Van Wert.

BOB PHIPPS A BUTCHER.

Bob Phipps, for several years on the police force in this city and formerly employed in the train service of the Pittsburgh, is now a prosperous butcher at Butler, O. He deals extensively in stock and poultry for the western market also. John Phipps, the well known Pennsylvania passenger conductor, has just returned from a visit with his brother.

FOR CHILDREN

Nothing, that comes in a bottle, is more important for children than Scott's emulsion of cod-liver oil. And "important" means that it keeps them in even health, on the highest plane of physical life.

"Do they live on it then?" No; they don't touch it, except when they need it.

"When do they need it?" Whenever they show, in whatever way, the least disturbance of even balance of health. It is not for acute diseases, with some exceptions; it is for a slight falling off from first-rate condition.

It is to be used as a food, whenever their usual food does not quite answer the purpose of food.

We'll send you a bottle to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

Bob, who recently married a most estimable lady at Butler, and he bears that gentleman's best wishes to all his old friends in this city.

WILL PUT ON ANOTHER GANG.

Owing to an increase in the work at the east yards the section force will be increased. Two gangs will work there hereafter, where only one was employed. A hand car shanty is being erected for the accommodation of the new section gang.

INSPECTOR PROMOTED.

J. E. Wooley, a car inspector at this point, has been promoted to the position of chief inspector for the Pennsylvania at Hamlet, Ind., and he went to that place to assume the duties of the office last night. Mr. Wooley will move his family to Hamlet as soon as he can find suitable quarters.

Pittsburg Engineer D. L. Mason is looking after some private business and will be off duty a day or two.

After a few days' rest in the country, Brakeman Harry Baum resumed work on the Nickel Plate yesterday.

Boilermakers are engaged in repairing the pumping station of the Pennsylvania at the St. Marys river.

George J. Alter, who had a finger pinched last Friday, reported for work in the Pittsburgh blacksmith shop this morning.

Machinist William Lerch, of the Bass works, is suffering from a severe cold and was unable to report for duty this morning.

Nickel Plate Conductor G. B. McCormick and Brakeman J. S. Dick are off duty, the latter for a week's visit with relatives in Chicago.

E. J. Wefel, a coppersmith, went to Convey this morning to aid the linemen on the Pittsburgh in putting a cable casing under the tracks.

Barney Hibbler, who was sick a good portion of the past week, reported for work at the Wabash shops this morning. He is a blacksmith.

Nickel Plate Engineer T. E. Short has returned from the Kankakee marshes, where he spent three or four days shooting ducks. He had good luck.

One thousand shares of the Pennsylvania were sold last Saturday in Pittsburgh at \$148.50 per share, the highest figure ever paid for this stock.

Capt. J. C. Kensill, the retired boiler-maker, called at the Pittsburgh shops this morning to shake hands and briefly chat with his old comrades there.

Pittsburg Firemen C. B. Bowser and F. Lentz are off duty on account of lame hands. Fireman H. L. Kennedy is laying off to attend to some private business.

The new blast pipe system was placed in operation at the Wabash blacksmith shops this morning, taking the place of the underground

system which had been in service twenty-eight years. The new pipes are overhead.

One of the Calhoun street safety gates was broken yesterday by a team belonging to the City Trucking company. The horses ran into the gate as it was being raised.

A. L. Hadley, of the Fort Wayne Electric works, is entertaining his brother, who resides in Tempe, Ariz., Mass., and travels for the Massachusetts Bridge company.

Road engine 151 and switch engine 220, the latter from Bellevue, have gone to the Nickel Plate shops for general repairs. Engine 219 has gone to the Bellevue yards.

Brakeman E. W. Horton, who was married at Mentone, Ind., last week, has returned to the city, accompanied by his bride, and reported for duty on the Nickel Plate yesterday.

Vice President J. J. Brooks, of the Pennsylvania, will pass through the city on train No. 8 this evening, en route from Chicago to his home city. Mr. Brooks travels in his private car.

Trouble of some character east of Crestline last night kept passenger train 15 back, and it did not reach this city until 7:10 o'clock this morning, about three hours behind schedule time.

William Dryer, Fred C. Schultz, C. H. Grimm, O. F. Diepenbrink and W. J. Koch are off duty on account of sickness. J. F. McCarthy sprained his back and is unable to work. All are Pittsburgh shopmen.

Mr. and Mrs. H. J. Acker have moved into the brick house at 252 Clinton street. Mr. Acker is foreman of the Pittsburgh freight house and the change of residence is made in order that he may be near his place of employment.

R. J. Whitcraft, a bridge carpenter in the employ of the Pennsylvania, was called to Van Wert, Ohio, this morning by a telegram telling him of the serious illness of his mother-in-law. It is feared the sick lady will not survive the attack.

A large force of men and teams began grading and otherwise getting Taylor street ready for laying the track of the Fort Wayne and Southwestern interurban road. Work commenced at Garden street and is progressing rapidly eastward.

Henry Dryer, one of the oldest of the employees at the Pittsburgh blacksmith shop, is suffering from dropsy and has been unable to work for nearly a year. He is able to walk about, however, and calls at the shop occasionally to see his shopmates.

The changes mentioned in The Sentinel last week went into effect this morning and T. J. Kueher, Henry Rippe and Luke Otten are duly installed in their respective offices. Mr. Bart will not take his new position until he returns from a visit with relatives in Ohio.

Glenn W. Erwin, a Pittsburg fireman, was called to Bourbon, Ind., last night upon a sad mission. A telegram brought the news of his mother's death at that city, and Mr. Erwin and his wife immediately went there to attend the funeral. Mr. Erwin lost his father two years ago.

No. 833, the last of the compound engines built by the Richmond Locomotive works for the Wabash, arrived here today. There still remains a switch engine to be delivered and when it arrives the order for forty engines will have been filled. These engines are doing good work and are considered the best on the road.

The four water tanks of the Pennsylvania, at Gay street, are to be replaced by new ones. The material for two of the tanks is already on the ground and carpenters are at work upon it. The tanks will be put up by pairs, in order that engines can be supplied with water, and the two first ones will be put in operation before the others are taken down.

Detective Thomas Wilkinson has returned from New York, where he served as a witness in a damage suit brought by a fellow named McCloud, who sued for \$50,000, alleging false imprisonment. The defendant, the Nickel Plate, came out victorious.

Mr. Wilkinson arrested and jailed McCloud at Tiffin, Ohio, for working the short change scheme. The alleged deed was committed in Indiana, and on account of the expense of getting requisition papers and bringing the accused man here, the railway company dropped the case and allowed McCloud to go free.

Knows No Distinction.

Rich and Poor Alike Suffer From Catarrh in this Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval

to the new internal remedy, Sturdt's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.

One well known catarrh specialist, as soon as he had made a thorough test of this preparation discarded inhalers, washes and sprays and now depends entirely upon Sturdt's Catarrh Tablets in treating catarrh whether in the head, throat or stomach.

Dr. Rissdell says, "In patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh, I have had fine results after only a few weeks' use of Sturdt's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says Sturdt's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hacking, coughing and expectorating.

Any sufferer from catarrh will find Sturdt's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste, are convenient and always ready for use, as they can be carried in the pocket and used at any time as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Guaiacum, blood root and Hydrastin.

All druggists sell the tablets at 50 cents for complete treatment.

THE NEWS OF THE POLICE

The monotony was broken at po-
lice court this morning when Judge
Louttit held a brief session but long
enough to send two unfortunates
over to the hotel de Stout for spe-
cial periods.

Henry Miller, who operates on the
alternating system, alternating be-
tween the jail and the police court
room, was up again for vagrancy.
He was found sleeping in a shed in
Nebraska last evening and was
brought in out of the cold. He is
supposed to be demented, although
he is apparently rational at times.
He is armless, but is a most persis-
tent beggar. He was sent over fif-
teen dollars' worth and an effort will
be made at the expiration of his
term to take care of him at the
county poor farm.

Henry Wolf, of New Haven, came
to town yesterday and gave an im-
itation of how a man drinks whisky
at New Haven. He mistook his ca-
pacity and when he reached the
south depot to go home he was so
drunk that the officer on duty there
was obliged to run him in. He com-
plained of a bad headache this morn-
ing and the judge said that he
thought a rest of about eleven days
would probably do his head some
good. Mr. Wolf climbed into the
wagon and was spirited away.

S. M. Foster reported that someone
had entered his waist factory on
Sunday with burglarious intent, but
so far as he could learn had taken
nothing of value.

Manager Welty of the Fort Wayne
box factory, reported that somebody
had stolen his bicycle yesterday af-
ternoon between the hours of 3 and 6.
He left a description of the wheel
with the police.

The contractors laying the tracks
of the Southwestern Traction com-
pany on Taylor street are greatly
annoyed by boys or others who steal
their red lights placed about the
work at night. Three lanterns have
been stolen since Sunday.

ABOUT THE CITY HALL.

The board of works had a short and
uneventful session yesterday after-
noon. Tom Snook asked permission
to build his own sidewalk at the cor-
ner of Jefferson and Griffith streets,
and wanted to build it next to the
street curb, with the lawn next to his
lot. The board did not act upon the
matter, but took his request under
advisement. The only other business
was the allowing of a few bills.

Councilman Sordlet's committee on
interurban terminals will meet this
evening at the city hall.

Assistant City Engineer McKendry
is confined to his home from injuries
received several evenings since by a
fall sustained in alighting from a
street car.

John Baker has been granted a per-
mit to build a \$1,500 house on West
Main street, and Aime Racine has re-
ceived a permit to erect a house of
equal value on North Harrison street.

Mrs. M. Huggard, of 152 High

ment, sold at Meyer Bros. & Co.'s
drug store, for many different things,
and I always found it to give a quick
relief and soon effect a cure. I had
something like the hives during the
summer and I could find nothing to
help them. They itched so where
the skin was affected that I could
not keep my hands off. I applied
Doan's Ointment; it quickly disap-
peared and has not returned. I also
used this remedy on a very severe
cut on my hand and the way it cured
that cut like magic."

PRICE TWO CENTS

TALKING TO JURY

ARGUMENT IN THE DUNN CASE
WELL UNDER WAY.

PROSECUTOR EMRICK OPENS
STRONG PRESENTATION OF THE
STATE'S CASE.

THE DEFENSE HAS AN INNING

S. L. MORRIS MAKING ABLE
PLEA FOR ACCUSED.

The Dunn murder trial rapidly ap-
proaches the last chapter.

It is not unlikely that by tomor-
row evening the fate of the aged and
white-haired prisoner, charged with
this foulest of crimes, will be under
deliberation by the jury.

Argument in the case began this
morning. Prosecutor Emrick opened
for the state in an address of three
hours to the jury. Mr. Emrick thor-
oughly recapitulated the evidence
and gave it strong presentation to
the jury.

This afternoon Attorney Samuel L.
Morris, of counsel for the defense,
began an able and highly argu-
mentative plea for the venerable
looking man who is charged with
the atrocious murder of little Alice
Cottrell. Mr. Morris will finish this
afternoon, doubtless, and tomorrow
Henry Colerick will complete the
argument for the defense. Judge
S. M. Hench will close for the state.

MR. EMRICK OPENS.

Prosecutor Emrick made the open-
ing argument on behalf of the state
at the beginning of court this morn-
ing. In his opening words Mr. Em-
rick expressed his belief that it was
a matter of congratulation to all that
the case was nearing the end. It
had been a long and arduous labor,
but it was necessary to find out what
the witnesses knew, and if much of
the subject matter seemed to be re-
petition, it was unavoidable. Jurors
had, however, listened patiently be-
cause it was their duty as good citi-
zens to do so.

The state has only wanted to try
this case fairly. The state does not,
in this or any other case, ask a con-
viction not warranted by the law and
the evidence.

Mr. Emrick referred to the enormi-
ty of the crime, which he charac-
terized as one of the most atrocious
that ever occurred within the con-
fines of this fair country. It has not
been a pleasure to try this case; it is
not a pleasure for you to sit as jurors,
but it was a duty imposed by good
citizenship.

RESUME OF EVIDENCE.

Mr. Emrick then began a resume of
the evidence; told of the humble
home of the Cottrells; of the little
girl, who was the friend of all. He
recited how Alice had been seen to
enter the Dunn home at ten minutes
of 1 o'clock; it was shown that she
was a favorite of Mrs. Dunn, for
whom she often sang. It was shown,
said Mr. Emrick, that she sat upon
the lap of Marie Sampleson, and in
the goodness of her heart had taken
a breastpin from her person and of-
fered the settings to her friend. He
told how Marie had gone to Haire's
to take a loaf of bread there; that a
few minutes later the girl returned
to Haire's for water, and as she was
returning home the little girl was
noticed to leave the house and was
never seen alive again.

Mr. Emrick then detailed the
whereabouts of Dunn on the ill-fated
2d day of July, and asserted that the
proof showed Dunn to have returned
from the woods that day before 1:30
o'clock.

WHERE WAS DUNN?

Continuing, Mr. Emrick said:
"Where was Dunn during that thirty
or forty minutes? Ah, you know
where he was; I know where he was,
and if little Alice Cottrell were here
today she would say he was in the
barn choking the life out of her little
body. The testimony as to the
whereabouts of Dunn is positive. Marie
Sampleson's word does not stand alone.
She is corroborated by prominent
and substantial citizens."

Mr. Emrick said there was no evi-
dence to show that her parents knew
Alice was gone before evening of
that day, and continued: "But there
was one individual—I will not say
man—who was searching for that
child hours before she was known to
be gone; a man with hair of gray
that should be a badge of honor in-
stead of reproach.

"And when at eventide that noth-
er came to inquire for Alice, she has
told 'Yes, she was here, but she has
gone, long ago.' Gone! Ah, yes, he

LIGHT VOTE CAST

BUT DORMANT INTEREST IN
THE ELECTIONS.

COLD WEATHER A DRAWBACK

GREAT CONTEST FOR MAYOR IN
NEW YORK.

ELECTIONS IN THE STATES

OHIO IS POLLING A VERY LIGHT
VOTE.

Columbus, O., Nov. 5.—Election
day opened clear and cold. This is
the home city of the opposing gub-
ernatorial candidates and chief inter-
est centers in this contest. Local
option matters are also attracting
much attention.

Reports from the state show fair
weather, although generally cold.
Reports from some close counties in-
dicate that the local committees and
workers were unusually active dur-
ing the forenoon. As both state
committees apprehended a small
vote, the local committees and work-
ers were instructed to be out early.

While it is claimed that the re-
publican state committee has had
more means than the democratic
state committee and perfected a more
complete general organization, the
local organizations of county com-
mittees are, as a rule, as strong with
one as with the other this year where
most of the county offices are at
stake. The work for county tickets
is affecting the general result more
than usual especially where sacrifice
bids are reported as in Cleveland,
Columbus, Toledo and other places.
These local complications will cause
the counting to be delayed some to-
night. The democrats say the early
returns tonight will be favorable to
their opponents.

The polls close at Cincinnati at 4
o'clock and elsewhere at 5:30. As
the republicans are considered in
better shape at Cincinnati than else-
where and as McLean carried Ham-
ilton county over Governor Nash two
years ago, the early reports from
Cincinnati will no doubt show such
republican gains as cannot be main-
tained elsewhere.

Cincinnati, O., Nov. 5.—With a
sharp frost, temperature lingering
about the freezing point and the sky
lightly overcast, the weather this
morning affords but little impetus
to political enthusiasm, but it also
presents but slight discouragement
to the indifferent voter. The scenes
at the polls indicate an ordinary
"off year" vote with perhaps a little
additional attention growing out of
the important local question of the
lease of the Southern railroad and
the special attack made upon the
republican candidate for county au-
ditor. An average vote may be ex-
pected.

Cleveland, O., Nov. 5.—Election
day in this city opened cloudy, cold
and disagreeable. Notwithstanding
the unfavorable weather conditions,
however, the voting was heavy dur-
ing the early hours of the morning.
A very large number of the ballots
cast were scratched. This will no
doubt lead to much delay in learning
the result tonight. The total regis-
tration is 60,758, which is up to the
average for "off" years.

Toledo, O., Nov. 5.—Weather cold
and cloudy and election progressing
without any unusual features. At-
tendance at the polls is normal and
no special interest is shown.

Youngstown, O., Nov. 5.—Election
day opened cloudy and cool. A bit-
ter factional fight on representatives
will probably result in a good-sized
vote being polled, although the early
morning voting was light.

Dayton, O., Nov. 5.—Election day
dawned crisp and clear. The early
indications pointed to a quiet elec-
tion and a light vote.

NEW YORK.

New York, Nov. 5.—Election day
broke cold and cheerless. A driz-
zling rain was falling and a chill
wind swept the streets, and the early
vote was seriously affected. In
many of the up-town polling places
there were no voters on hand when
the boxes were opened at 6 o'clock,
and at others little groups that had
gathered earlier sought shelter from
the chilling rain. In the more
densely populated districts there
were crowds at the polls and at the
nineteenth election district in the
Sixth assembly district, of which

FRENCH SQUADRON IS NOW AT

NO APPEAL MADE TO BRITAIN

ON STRENGTH OF OLD TREATY

BY WHICH INTEGRITY OF
TURKEY WAS GUARANTEED.

Paris, Nov. 5.—An official dispatch
announces the arrival of Admiral
Caillaud's squadron this morning at
the island of Mytilene.

Admiral Caillaud has occupied the
three principal ports of the island of
Mytilene.

SEIZES THREE PORTS.

London, Nov. 5.—According to a
dispatch from Paris to a news agency
here the French squadron has arrived
at Smyrna and has seized three ports
on the island of Mytilene.

The British foreign office has had
no request from Turkey, as an-
nounced by the Constantinople cor-
respondent of the Echo de Paris, to
fulfill the terms of the convention of
1878, by which, in exchange for the
island of Cyprus, Great Britain guar-
anteed the integrity of the sultan's
Asiatic possessions.

GOT HIS ORDERS.

Paris, Nov. 5.—Admiral Caillaud's
squadron arrived off the island of
Smyrna (Grecian Archipelago) yesterday
and detached a dispatch boat, which
entered the port of Smyrna and received
from the telegraph station a batch of
dispatches containing definite in-
structions from the French govern-
ment regarding carrying out the
sealed orders which were handed to
the admiral previous to his leaving
Toulon. These dispatches directed
Admiral Caillaud to proceed to the
island of Mytilene, where he will
seize the customs at Mytili, and at
another port. The squadron is now
on its way to Mytilene and will
probably arrive at its destination to-
morrow.

The foreign office here has not yet
received the sultan's reply to the note
presented by M. Bapiste, councillor of
the French legation at Constantinople,
following out the instructions of
M. Delcasse, the foreign minister,
under date of November 3.

MOTHER DESERTS HER BABE

MRS. FORDYCE LEFT CHILD
WITH A NEIGHBOR.

Then She Disappeared From the City
—Father Also Missing—Home
Found for Little One.

Some six weeks or two months ago
a family named Fordyce arrived in
the city and located at 223 Lafayette
street, where they entered upon a
somewhat turbulent domestic career.
The family consisted of Thomas For-
dyce, the husband; Margaret For-
dyce, the wife, and two children, a
boy aged about two and a little girl
aged about nine or ten months. The
father appeared to be a shiftless sort
of a fellow, not much inclined to
work, and considerably inclined to
drink when he had money. When he
was in liquor he was abusive to his
family and less than two weeks ago
Detective Colling was called to the
Fordyce domicile to adjust a family
row in which the husband was the
unprovoked aggressor. The patient
and long-suffering wife stood up for
her husband and refused to make any
charge against him, and after an ad-
monition the husband went away.
Shortly after this the husband and
father left the house, and without
intimating where he was going, bid
the folks good bye and said he was
not coming back. It is surmised he
went to Cincinnati. Mrs. Fordyce
bravely went to work, but was
obliged to place her oldest child in
the orphan's home, where it now is.
She struggled along as best she could
until Monday morning, when she
took her little babe to Mrs. Wagner,
at No. 8 Buchanan street, asking her
to keep it for her. The mother then
fled her few belongings into a bun-
dle, started north on Lafayette street
and has not since been seen. That
she voluntarily deserted her babe

MASSACRE OF AMERICAN GAR-
RISON PLANNED.

A WOMAN EXPOSED THE PLOT

TREACHERY OF NATIVES AT
TABLAC, LUZON.

TOWN OFFICIALS INVOLVED

PLANNED TO SET FIRE TO THE
BARRACKS.

Manila, Nov. 5.—A plot to mas-
sacre the American garrison at Mou-
cada, province of Tarlac, island of
Luzon, has been revealed by the
wife of one of the conspirators.

Several of the town officials are
implicated in the murderous scheme.
The woman who revealed the plot
hid a detective beneath a house in
which the leaders of the conspiracy
were meeting. Arrests followed and
many incriminating papers were
seized.

The plan was to set fire to a house,
close to the barracks, after dark, and
when the soldiers came out to assist
in extinguishing the flames, 150
conspirators, armed with bolos, were
to rush on the guard, capture their
arms and proceed to massacre the
garrison.

Commissioner Wright today took
the oath of office as vice governor.
He will be acting governor during
the convalescence of Governor Taft,
who probably will be unable to re-
sume his duties for some weeks to
come.

The United States Philippine com-
mission today passed the treason
laws, with slight alterations. Sev-
eral Filipinos spoke against them.

The newspapers here approve of
the appointment. The federalists are
holding a convention to arrange for
a petition to congress asking that
body to grant autonomy to the Phil-
ippines, with a governor appointed
by the president of the United
States, with vote power over the two
houses, the senate to consist of
thirty members, fourteen of them to
be named by the governor and six-
teen to be elected.

PRESIDENT VOTES AT HOME

GOES TO OYSTER BAY, L. I., TO
CAST HIS BALLOT.

No Notable Incident Attends the Act
—Return Trip to Washington
is Begun at Once.

New York, Nov. 5.—President
Roosevelt left Long Island City for
Oyster Bay at 9 o'clock. He was ac-
companied by Secretary Cortelyou,
Assistant Secretary Loeb and several
friends. The party rode in a special
train, consisting of a Pullman and a
combination car. The crowd at the
depot cheered the president as he
entered the train at Long Island City.

The train reached Oyster Bay at 10
o'clock. The president was cheered
as he stepped upon the station plat-
form, and a salute of twenty-one
guns was fired in his honor. He
entered a carriage, which conveyed
him to the polling place.

There was no notable incident in
connection with the casting of the
president's vote. Afterward the
president took a rapid drive to his
home on Sagamore Hill, Little Neck
Cove.

The special train left Oyster Bay on
the return trip at 11 o'clock. Those
who accompanied the president on the
trip to Oyster Bay were his cousin,
William E. Roosevelt, Dr. Holbrook
Curtis, W. J. Youngs, who was Mr.
Roosevelt's private secretary when he
was governor, and Secretaries Cortel-
you and Loeb.

Secret service and New York detec-
tives also accompanied the train.

o'clock today Rt. Rev. Samuel C. Eds-
sall, formerly of Chicago, but for the
past three years missionary bishop
of North Dakota, was formally in-
stalled as head of the Protestant
Episcopal diocese of Minnesota
and Christ church in this city. Clergy

TO SEIZE PORTS

FRENCH SQUADRON IS NOW AT
ISLAND OF MYTILENE.

WILL COLLECT THE CUSTOMS

NO APPEAL MADE TO BRITAIN
BY TURKEY.

ON STRENGTH OF OLD TREATY

BY WHICH INTEGRITY OF
TURKEY WAS GUARANTEED.

Paris, Nov. 5.—An official dispatch
announces the arrival of Admiral
Caillaud's squadron this morning at
the island of Mytilene.

Admiral Caillaud has occupied the
three principal ports of the island of
Mytilene.

SEIZES THREE PORTS.

London, Nov. 5.—According to a
dispatch from Paris to a news agency
here the French squadron has arrived
at Smyrna and has seized three ports
on the island of Mytilene.

The British foreign office has had
no request from Turkey, as an-
nounced by the Constantinople cor-
respondent of the Echo de Paris, to
fulfill the terms of the convention of
1878, by which, in exchange for the
island of Cyprus, Great Britain guar-
anteed the integrity of the sultan's
Asiatic possessions.

GOT HIS ORDERS.

Paris, Nov. 5.—Admiral Caillaud's
squadron arrived off the island of
Smyrna (Grecian Archipelago) yesterday
and detached a dispatch boat, which
entered the port of Smyrna and received
from the telegraph station a batch of
dispatches containing definite in-
structions from the French govern-
ment regarding carrying out the
sealed orders which were handed to
the admiral previous to his leaving
Toulon. These dispatches directed
Admiral Caillaud to proceed to the
island of Mytilene, where he will
seize the customs at Mytili, and at
another port. The squadron is now
on its way to Mytilene and will
probably arrive at its destination to-
morrow.

The foreign office here has not yet
received the sultan's reply to the note
presented by M. Bapiste, councillor of
the French legation at Constantinople,
following out the instructions of
M. Delcasse, the foreign minister,
under date of November 3.

A NOTED PHYSICIAN

Makes an Important Statement of Interest to All Women.

"Dear Mrs. PINKHAM:—The honest, intelligent physician is above the school. Whatever is best in each case should be used, no matter to what school a physician belongs. I, as a matter of conscience, can only prescribe the best, and as I know and have proven that there is nothing in Materia Medica which equals Lydia E. Pinkham's Vegetable Compound in severe cases of female disorders, I unhesitatingly prescribe it, and have never been sorry. I know of nothing better for ovarian troubles and for falling of the womb or uterine displacements. It absolutely restores the affected part to their normal condition quicker and better than anything else. I have known it to cure barrenness in women, who to-day are happy mothers of children, and while the medical profession looks down upon 'patents,' I have learned, instead, to look up to the healing power, by whatever name it is called. If any fellow physicians started tell the truth, hundreds of them would voice my sentiments."—Dr. W. W. WATKINS, Lansing, Mich.

TALKING TO JURY

(Continued from First Page.)

Dunn. That's the man who went to the orphan's bed and sought to take her in his lecherous embrace; that's the man who said he had searched his premises; that's the man who asked what people were saying; that's the man who put paper up to the door to keep out curious eyes, but he could not keep out the eyes of Almighty God; that's the man who tried to hide the evidence of his awful crime.

"Gentlemen, I thank you for your kindness and your patience. I have tried to be conscientious and fair in this case. I realize the gravity of it. I know Allen county juries are fair. If you find any mercy in the law, give it to him. All we want is justice, and in the name of humanity I ask of you a conviction of Charles Dunn. In the name, then, of little Alice Cothrell; in the name of the new-made grave; in the name of that vacant chair; in the name of the grieving parents; in the name of other parents who have daughters, let me feel that notwithstanding there be found a man in Allen county who could be guilty of such an atrocity as was this, the people of Allen county were equal to the emergency."

DEFENSE BEGINS ARGUMENT. Mr. Morris made the opening argument for the defense, beginning at the opening of court at 1:30 o'clock this afternoon. In the division of time Mr. Morris is to occupy three hours, and will be followed by Mr. Colerick, who will use four hours in presenting his arguments.

In his opening this afternoon Mr. Morris spoke of the gravity of the case—a man in the evening of his life, charged with taking the life of a young girl. He cited the fact that the law required a case to be proven beyond a reasonable doubt before a conviction could follow. Mr. Morris presented a number of rules of law which must govern in charges of murder. A reasonable doubt, he said, might arise either through the evidence itself, or from a failure of evidence to prove, and reminded the jurors that there was from the first a presumption of innocence of any accused person. He is entitled to the independent judgment of every juror on the panel. Liberty is too dear and life too precious to take it unless you are driven to the conclusion that the accused person is guilty.

Mr. Morris stated that Dunn was born nearly sixty-two years ago; that his entire life has been devoted to labor. He lived at Wallen, and up to July 2 the evidence does not show that this aged man attempted any liberties with Alice Cothrell.

Mr. Morris traced the movements of Dunn on that day; arising, doing chores, drawing water and going to Hand's woods; cutting six logs, and his walk back to Wallen with the crescent saw upon his back. Mr. Morris dwelt upon the claim that it was highly improbable that a man of Dunn's age, returning from a day of arduous toil, would be impelled to commit a crime so heinous as is the one charged. He thought such an idea repugnant to common sense.

Regarding the state's claim that Dunn had been searching for Alice at 2 o'clock, Mr. Morris contended that it was not sustained by the evidence.

Mr. Morris contended that the evidence did not show that Alice had ever entered that barn; and said: "Remember, nobody has connected Dunn with the girl; there is no evidence that he saw her on that date. I have two theories, to say mind far more reasonable than those advanced by the state. When I present them I think you will agree with me that it is far more probable that Alice Cothrell's death was due to accident than to violence.

Mr. Morris argued that had Marie heard screams to the north of the house on that Tuesday she would have mentioned the matter while Dunn was eating his dinner instead of waiting until after she had been in jail to remember them.

What motive had Charles Dunn for such a crime? If it be shown here that there was no outrage, then this charge must fall. It is a matter of human experience, gentlemen, that men of his type do not commit these outrages. It isn't the laboring man—the man who is broken down with toil that does that.

Attorney Morris is speaking as The Sentinel goes to press. **STATE HAD SOME EXPERTS.** It was very near the close of the

testimony Monday afternoon when the state's attorneys sprung something of a surprise in the way of a formidable array of expert witnesses tending to show the probability that the blood-tinged matter taken from the body of Alice Cothrell was the result of an injury rather than due to a disease with which the girl may have been afflicted.

Following Dr. Van Buskirk and Dr. Van Sweringen, Dr. Herman A. Duemling was called and said such disease would cause patient to be so ill as to manifest it. Dr. Power thought according to the hypothetical question blood would be due to an injury.

DIDN'T SEE IDA THERE.

Marie Sampleson was recalled to the witness stand, and it proved her last appearance as a witness in the trial. She testified that at no time while Dunn was eating his dinner on Tuesday, July 2, did she see any little girl sitting in the doorway talking to Dunn, as claimed by him. Witness knew Ida Cothrell, but did not see her there at noon.

Cross-examined by Mr. Colerick, witness said her name was Estella Marie, not Marie Estella.

PARENTS WERE LAST.

Edward Cothrell, father of the dead girl, testified that at no time to his knowledge had the girl any disease of the kind in question; she never complained of it; her general health was good when witness left home on the morning of July 2.

Cross-examined, the father said he had never observed any vermin on the body of the child.

Mrs. Sarah Ellen Cothrell was recalled and said that Alice was in good health when she last saw her alive on July 2; witness had given her a bath on the Sunday morning previously. "She was cleanly and all right so far as I know, and never complained of any trouble of this character," said the mother.

On the cross-examination the mother said she had once found lice on the girl, but it was several years before her death.

At the conclusion of Mrs. Cothrell's testimony both the state and the defense announced that they were through with the testimony.

ARE MOVING HOUSE.

Judge O'Rourke overruled Mr. Colerick's motion that the jurors be taken, under the charge of proper officials, to Wallen in order that they might view the scenes about the premises occupied by Dunn, including the barn and the cistern from which the little girl's body was lifted on the evening of July 7 last.

It is learned that the owners of the house which has achieved such wide notoriety are preparing to remove it to a new location half a mile distant, and that it is already elevated upon jack-saws for this purpose. The new barn in the rear, often mentioned in the testimony during the past two weeks, has already been torn down, and the scene will soon be greatly changed.

As the attorneys gathered about Judge O'Rourke just previous to adjournment they were asked concerning the time required for argument, and Judge O'Rourke stated that each side of the case could have six or seven hours. The latter limit was chosen, and court adjourned until this morning.

KILLED HER NAMELESS BABE.

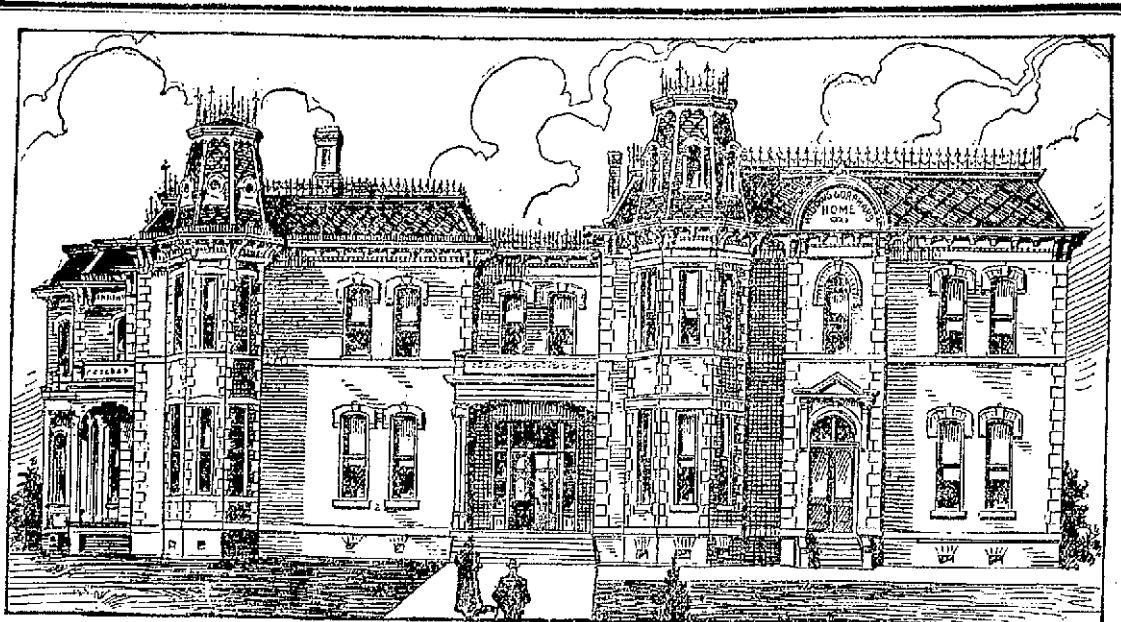

Lima, Ohio, Nov. 5.—Jessie Coll, aged 22, mother of a babe found in a vault at Yoder, was arrested today and brought her for trial before Justice Riley. She confessed that after the child was born Thursday afternoon she choked it to death by fastening an apron string around its neck, and then to make sure she plunged the blade of a pair of scissors into the soft part of its brain. Her mother, she says, threw it into the vault, where it was found.

HEAD-ON COLLISION.

Chicago, Nov. 5.—A head-on collision between a freight train and the Burlington fast mail occurred at Riverside early today. William Kelly, conductor, and Frank Rees and James Watson, of the mail train, and Engineer Thomas Gregory and Fireman John Douglas, of the freight, were severely but not fatally injured. The collision was due to a fog which obscured the signals.

We have in the Oddfellows' Widows' and Orphans' Home eighty children from 1 1/2 to 15 years of age, and for the ill of indigestion and constipation to which children are frequently subject, we have found nothing so satisfactory, so pleasant to take and so effective as Dr. Caldwell's Syrup Pepsin and Herb Laxative Compound, which we have used since June, 1900.

This remedy was introduced into our institution through the kindness of a member of our order who was formerly a citizen of Monticello, Ill., where Dr. Caldwell's Syrup Pepsin is manufactured.

It is as good for grown people as for children and we heartily recommend it to all sufferers from stomach and bowel troubles.

MISS STONE PROBABLY ALIVE.

Washington, Nov. 5.—The state department has received telegraphic advices from its agents in Turkey and Bulgaria, in the course of which they express with conviction the opinion that both Miss Stone and Madame Tsilka are alive and well, or at least were so several days ago. It requires several days for news to be transmitted through the wild country where the women are held captives. Nothing can be obtained for publication respecting the progress of the negotiations for the ransom of the women.

WHAT A DAY.

"Great minds run in the same channel." and the minds were on overcoats yesterday and the channel led to our store. Yesterday was a great overcoat day. The men wanted coats and they wanted them in a hurry, and we had the coats they wanted, and they could buy them just as fast as they wanted to. Black and whites were the favorites yesterday, but night found the piles of "browns" and "Oxfords" much lower. We have over twice as many overcoats for you to select from as you can find elsewhere, and all new, nobby styles. Give our competitors a look if you have the time, but don't fail to see our line before you buy.

DIRT CLEARANCE.

It is a good plan for every bather to know something of the soap he uses. There is a well-founded objection to using a floor-cleaning soap upon the human body. Ivory Soap is the bather's soap. It costs more than common soaps, but the difference is in the ingredients and making. Why not treat yourself with a little respect. Is not the human skin with its marvellous delicacy entitled to pure soap? Ivory Soap—it floats.

PERUVIANS ARE SORRY.

(Peru Chronicle.)

The Carnegie donation of \$75,000 for a public library at Fort Wayne is not big enough to suit the architect and the building board and they propose to ask the donor for an additional \$15,000. As in the first bidding in this city, the proposals for construction were too high. Here all bids were declared off in consequence and a second bidding was invited. At Fort Wayne the bids were also too high, but instead of asking for second proposals, the building board will ask Mr. Carnegie for an increased donation to square the building with the architect's designs. Now, it is expected that the Peru board will kick itself for not having as much penetration and gumption as the Fort Wayne board.

E. Hanta has resigned his position at the White Fruit house and has taken one with Beadell & Co.

TAKE THEM OUT.

Or Feed Them On Food They Can Study On.

When a student begins to break down from lack of the right kind of food, there are only two things to do; either take him out of school or feed him properly on food that will rebuild the brain and nerve cells. That food is Grape-Nuts.

A boy writes from Jamestown, N. Y., saying: "A short time ago I got into a bad condition from over-study, but mother having heard about Grape-Nuts Food, began to feed me on it. It satisfied my hunger better than any other food, and the results were marvelous. I got fleshy like a good fellow. My usual morning headaches disappeared, and I found I could study for a long period without feeling the effects of it."

"After I had been using Grape-Nuts Food for about two months I felt like a new boy altogether. My face had been pale and thin, but is now round and has considerable color. I have gained greatly in strength as well as flesh, and it is a pleasure to study now that I am not bothered with my head. I passed all of my examinations with a reasonably good percentage, extra good in some of them, and it was Grape-Nuts that saved me from a year's delay in entering college."

"Father and mother have both been improved by the use of Grape-Nuts Food. Mother was troubled with sleepless nights, and got very thin and looked careworn. She has gained her normal strength and looks and sleeps well nights." Don E. Cooper.

Today will determine just to what degree Croker and Tammany are supreme in Greater New York.

The murmuring to Great Britain against the war burdens is assuming the volume of a roar. It seems to be incumbent upon Mr. Kipling to write another poem on the soothing topic of "Pay, Pay, Pay."

We commend the spirit of the people of the little village of Poe and vicinity to the people of Fort Wayne. When the Poe folks heard an interurban road was headed for Fort Wayne and might possibly be induced to include that village in its route, they promptly set about it to have the thing done.

Meanwhile, the evidences multiply that Fort Wayne is sooner or later to be the important center of many interurban railways. Why does not Mayor Berghoff, the board of public works and the city council get together and attempt to give the people of this city some practical solution of the whole problem of interurban entrance and terminals? If there is any line along which more important public service can be rendered, we trust the administration and council are at work upon it.

It looks very much as though Turkey had "gone against the road thing" this time. The French fleet has its orders to seize a port and take possession of the custom house, which probably by this time has been done. The situation is one that the sultan doubtless will be forced to arrange himself the best he can. There

is no special opportunity for outside interference, if any of the powers wished to interfere, which in this case seems not to be at all the case. Most of them have bills they would like to have settled and doubtless some of them will take counsel of the firm action of France and help themselves to what they can get.

THE TRADE OF THE WORLD.

The treasury department has prepared an interesting statement of the monthly trade of the thirty leading nations of the world for September, which shows that one-third export more than they import and twenty import more than they export. Naturally attention is first directed to the figures for the United States and the United Kingdom, the two great commercial countries. Their exports are practically the same, although the advantage is with the United States. On imports, however, where the United Kingdom buys nearly \$208,000,000 worth, the United States purchases but \$72,000,000 worth. In other words, where the United States imports amount to something more than half its exports, the imports of the United Kingdom reach almost twice the value of its shipments.

Germany and France also exceed the United States in imports. Cuba's exports and imports are about equal, with imports very slightly in the lead. In the Philippines there is an excess of imports of about half a million.

The list of countries shows many striking contrasts. The ten which have greater exports than imports are: Argentina, Austria-Hungary, Brazil, Chile, British India, Mexico, Roumania, Russia, the United States and Uruguay. The twenty whose imports exceed their exports are: Belgium, Canada, the Cape, China, Cuba, Denmark, Egypt, France, Germany, Greece, Italy, Japan, Holland, Norway, the Philippines, Portugal, Spain, Switzerland, Turkey and the United Kingdom.

KITCHENER GIVES DETAILS

THINKS BOER LOSSES HEAVY IN LAST BATTLE.

Says Boers Took British Guns Under Cover of British Ambulance—Wounded Badly Treated.

London, Nov. 5.—Lord Kitchener in a report to the war office under date of Nov. 4, giving further details of the recent engagement near Brakenlaage, (Eastern Transvaal, between Colonel Branson's column and the Boers, says:

"The Boers were unable to remove the guns they captured until a British ambulance went out, when, under cover of the ambulance, the burghers carried them off. The Boer losses were undoubtedly heavy, but no correct estimate of them is obtainable. Commandant Upperman was killed and Chris Botia was wounded. The Boers are reported to have behaved badly to the British wounded."

Lord Kitchener further reports that Cape Colony to the eastward of the Western railway is cleared of Boers with the exception of the Fouches-Mylburg-Wessels command, of 400 men, with which General French is dealing.

COMING TO AN END.

The World in Its Later Days.

This subject is of serious importance to all, but should not cast a gloom or shadow or even a passing uneasy thought in the mind of any one alive today, as the most profound and sincere Bible student has only been able to approximately locate the final dissolution of the world and simply states that we are living in the latter days, which, if he be right, may mean a long life for generations of men yet unborn. But trouble and possibly the end is near at hand for thousands of us that are going on in the old way, neglecting the proper treatment of the body or using the old remedies that simply relieve and do not cure.

Pepsotone, the Health Tablet, is a comparatively new remedy especially adapted to the cure of dyspepsia, indigestion, constipation and all other troubles arising from a disordered stomach. These tablets are composed of remedies that act direct upon the organs that constitute the digestive tract, aiding the stomach to perfect digestion, clearing the liver of all poisonous bile, and working like magic on the clogging, congested, constipated bowels. There is nothing that so fortifies the system against all troubles arising from extreme atmospheric changes that we are always subject to in a climate like our.

TO ENLARGE HOPE HOSPITAL

PROPERTY WILL BE BONDED FOR \$20,000.

Present Accommodations Insufficient—Annual Meeting Held Last Evening.

The annual meeting of the officers of Hope hospital was held last evening in the parlors of the hospital, and much business of importance was transacted. Ten directors, whose terms had expired, were re-elected for three years, and Van B. Perrine was elected to a vacancy in the board for a period of two years.

Owing to the pressing need for more room, it was decided to make an addition to the hospital, and the property will be bonded in the sum of \$20,000. A committee consisting of Messrs. Charles McCulloch, S. D. Bond, H. C. Paul, S. M. Foster and J. F. W. Meyer was appointed to secure subscriptions for the sale of the bonds. It is probable that another story will be added to one of the buildings, as eight additional rooms could thus be secured. The hospital has been filled to its utmost capacity for some time and it is impossible to handle emergency cases on account of the crowded condition of the wards.

The reports showed the condition of the hospital to be most prosperous. The running expenses of the institution for the past year have all been paid and the only debts outstanding are those incurred in the erection of the new buildings. The reports were most satisfactory in every way and the directors feel much encouraged over the outlook.

GRADING BEGAN MONDAY.

(Bluffton News.)

Workmen began this morning on the grade of the electric line which is to connect Bluffton, Muncie, Hartford City, Fort Wayne, Montpelier and other points. November 1 was the date set, but this fell on Friday and superintendence says that no great work should be started on so unlucky a day. The grade work, much of which has been let out by contract, will begin between this city and Hartford City. The roadbed will then be completed to the north of Hartford. It is the intention of the company to complete the entire line, as for grading, by next spring, when the material will be shipped, and the line placed. The order for the rails has been placed and other material has also been contracted for. The completion of the grading will admit of the laying of the rails and the completion of the road on short notice, after the arrival of the material. Of all the railroad projects that have come before Bluffton this is the only one likely to succeed. It will not be surprising to see an electric line headed into Fort Wayne next year.

NEGRO BURNED AT STAKE FOR ASSAULTING A WOMAN.

Captured, Forced to Confess Tried by the Mob, Taken to the Scene of Crime and Cremated.

Gulfport, Miss., Nov. 5.—A negro, whose name has not yet been learned, was burned at the stake in Perry county, Mississippi, Saturday night. The crime for which the negro suffered was committed early in the morning and Mrs. Fortenberry was the victim. She is the wife of one of the most prominent men in that section. She was attacked, beaten into unconsciousness and criminally assaulted by the negro. After recovering consciousness while yet almost too weak to move, she began crying for help. Within a short time assistance reached her. She told the story of the crime and described the negro. A posse was organized and search was begun for the criminal.

A negro answering the description given by Mrs. Fortenberry was caught, taken and identified by her. She stated positively that he was the man who had committed the crime. The negro then made a confession telling all the details he had previously denied. An informal court was organized by the members of the posse. The trial resulted in a decision to burn the negro. He was carried from the house to the exact scene of his crime and there burned at the stake.

THE LAST FEW YEARS HAS SHOWN A REMARKABLE INCREASE OF SLEEPLESSNESS—HOW TO OVERCOME IT.

Sleeplessness is one of the most prolific sources producing weak-nervous and restless conduct. There is no sense in using opiates—they only undermine the constitution. Nothing has ever been known to perfectly control this condition until the advent of Dr. A. W. Chase's Nerve Pills. Their action is so gentle and soothing sweet refreshing sleep follows then nature has a chance to build up.

Mr. J. R. Deleus, of No. 135 West Main St., Fort Wayne, Ind., says: "Owing to shock some years ago I have had more or less difficulty sleeping and the nerves were unstrung. I was induced to use Dr. A. W. Chase's Nerve Pills and got some at Meyer Bros. & Co.'s drug store, No. 14 Calhoun St., am able from the excellent results in the matter of obtaining nerve steadiness and strength and restful sleep to recommend the medicine to others as a reliable nerve tonic."

"A year ago my wife had rheumatism in her hand and fingers so that she could not close them. She took two bottles of Smith's Green Mountain Renovator and it cured her. I have had trouble with my back for two years, so that it hurt me to ride, and I could not sleep nights. I was tired out all the time. I sent out west for a kidney medicine and it made me worse. I finally tried your Smith's Green Mountain Renovator and have taken nine bottles. It has absolutely cured me. I will vouch for your Renovator."

Respectfully yours,

LIGHT VOTE CAST

(Continued From First Page.)

democrats, who are candidates for the various local offices to be filled.

MARYLAND.

Baltimore, Nov. 5.—When the polls opened in this city at 6 o'clock this morning many voters were in line at most of the precincts, and by 8 o'clock a fairly heavy vote had been cast. The new election law does not appear to have proved much of a drawback so far as the early voters are concerned, the average time consumed in each case being less than a minute. The usual percentage of colored voters were in line and no great falling off in that direction is looked for in the city.

The polls opened in the counties at 8 o'clock and advice from points outside of Baltimore show about the same conditions that exist here. The skies are overcast and the air is damp and chilly, with prospects of rain or snow before the day is over.

Fully 75 per cent of the registered vote had been cast at 1 o'clock, with indications that the democrats have made such gains in the city and state as to insure the election of their ticket. While there is some doubt as to the result in the city, there seems to be but little in the counties, all advice indicating democratic victory in the doubtful districts. The republicans are inclined to concede democratic success in two of the three legislative districts in Baltimore city and the indications point to a democratic majority in the legislature, which means the re-election of Mr. Gorman as United States senator.

NEBRASKA.

Omaha, Neb., Nov. 5.—The weather in this city this morning was clear and bright, following a fall of one inch of snow last night. The polls were open at 7 o'clock and the early morning voting was fairly heavy. The registration was comparatively light and after the laboring classes had voted the balloting was slow. There was no excitement and the detail of special police officers scattered throughout the city had little to do.

COLORADO.

Denver, Col., Nov. 5.—The weather is fine and all the conditions are favorable for bringing out a large proportion of the registered voters in this city. The election has been hotly contested and both the republicans and the democrats claim to be confident of winning in this county. Special officers appointed by the fire and police board (democratic) were present at all the voting booths this morning and Mayor Wright issued a

and beautiful women are gathered together yearly, and nature collects their delicate fragrance and reduces it to that essence of perfect perfume, "after of roses" and "perfect children." An essential oil for the reduction of women's fragrance is

**MOTHER'S

It is a balsam for external use on the breast and over the region of the generative organs. With its careful use throughout the period of lactation, woman's figure will remain perfect. The seemingly crushed and disfigured body of maternity will mature into the blooming rose again. The strongest remedy will be a perfect child blessed with the vigor, health, color and perfume of the mother's rose. Its little rose face buds her, almost an exact reduction and counterpart of her own, will tell the blooming curves that are still her own.

proclamation declaring that the democrats intend to resort to fraud and appealing to citizens "to serve as a posse comitatus for the sheriff in the event that it is necessary for him to call upon the good people of the city to assist him in arresting those who are guilty of the commission of crimes against the ballot."

KENTUCKY.

Louisville, Ky., Nov. 5.—The election was begun in Louisville and over the state with the weather crisp and biting. The first hour in Louisville found very few voters at the polls, and no rush is expected much before noon. About the only important doubtful contest in Kentucky is that for mayor of Louisville, with indications rather favorable for Grainger, the democratic nominee.

NEW JERSEY.

Trenton, N. J., Nov. 5.—The capital is practically deserted today, all the officeholders having gone home to vote in what is conceded to be the hardest fought election in New Jersey in many years.

Reports from southern New Jersey indicate a heavy vote by both parties. In Cumberland county factional differences have been settled in the republican ranks and the chances are considered excellent for the election of B. H. Minch for state senator.

Of the seven state senators to be elected republicans claim victories in Bergen, Mercer, Ocean, Cumberland and probably Morris counties.

Newark, N. J., Nov. 5.—The election is proceeding quietly. At the republican state headquarters confidence was expressed in the success of Franklin Murphy, candidate for governor, while at the headquarters of the James M. Seymour association the election of Mayor Seymour, Mr. Murphy's opponent, was declared to be assured.

Princeton, N. J., Nov. 5.—Former President Grover Cleveland cast his ballot at Chamber street polling station at 10:45 o'clock today.

MASSACHUSETTS.

Boston, Nov. 5.—With a crisp frosty fall morning the vote here during the early hours was hardly above the average, although the registration had been unusually heavy. Reports from other points during the forenoon indicated that in many sections the vote was light. Where there were local fights, however, there was promise of larger figures. It was believed that the total vote would be between 220,000 and 300,000, with a republican plurality of from 30,000, the democratic concession, to 50,000, the republican claim. For the first time since 1895 the democrats were united, but it was the claim that the return of the disaffected ones to that party would be offset by the democratic votes which Governor Crane would draw because of his attitude of sympathy toward organized labor.

VIRGINIA.

Richmond, Va., Nov. 5.—Advisers regarding the election in the state are coming in slowly. The weather is cold and raw. This probably will cause some falling off in the local vote, but is not likely to affect the general result. Indications are that the democratic ticket will be successful.

RHODE ISLAND.

Providence, R. I., Nov. 5.—Very little activity characterized the early hours at the polls in the state and municipal elections in Rhode Island today and the indications were that a small vote would be cast. The election of the republican ticket is considered certain, although by a greatly decreased plurality.

A BIG HAUL OF DIAMONDS

THIEVES GET RICH LOOT IN CINCINNATI.

Break Jeweler's Show Window and Seize Jewels Worth \$20,000—Gems Scattered in Street.

Cincinnati, O., Nov. 5.—Burglars broke the big show window of the Duhme Jewelry company's store on Fourth street between Vine and Race early today and stole \$20,000 worth of diamonds. In their flight they left a trail of diamonds indicating the direction they took. The diamonds stolen were loose on a tray. The night watchman says he heard no noise and saw nothing of the robbers and it is supposed they took advantage of the noise of a passing wagon or car to break the glass, seize the tray and run.

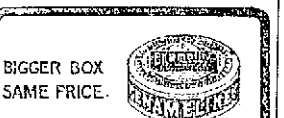

ABOUT THE COURT HOUSE.

Sheriff Stout was last evening notified that Jacob Fink, the famous tea blacksmith, was again in one of his ugly tantrums and was threatening to demolish everything in the neighborhood. Deputies Reichelderfer and Dassler were immediately sent to Leo, where they captured Mr. Fink after the exercise of a little strategy, and safely landed him in the jail about midnight. Fink is a character and has been adjudged insane at least twice. Until recently he was confined at the county asylum, but was let go because it was thought that he had regained a normal mental equilibrium. He has been a bad actor for several days and yesterday for the first time in his life, directed his onslaughts against his wife, whom he ran out of the house, threatening to kill her, and did attack her with a beard. It is quite likely that he will again be sent to the county asylum.

Myrtle Lingle, who was taken into custody a couple of weeks ago on order of the board of guardians and released is again an object of the board's solicitude. The sheriff has been requested to bring her in, when an effort will be made to care for her permanently. The girl is not exactly an incorrigible, but her associations are bad.

The county commissioners transacted miscellaneous business today. Tomorrow is bill day.

Contractor Andrews is expected to arrive in the city today with one of the large pictures to be placed in the

HANNA ENDS TALK

FIRST GOVERNMENT SPEECH IN

SCHLEY CASE OVER.

REVIEWS THE TESTIMONY

CAPT. PARKER BEGINS ARGUMENT FOR THE ADMIRAL.

A CASE WITHOUT PRECEDENT

VICTORIOUS COMMANDER PUT ON TRIAL.

Washington, Nov. 5.—Mr. Hanna continued his argument when the Schley court of inquiry convened at 11 o'clock this morning. He began where he had left off yesterday, and after briefly referring to the retrograde movement, the discussion of which he had entered upon yesterday, he took up the question of the coal supply of the flying squadron, and from that entered upon a discussion of the blockade of Santiago, and the reconnaissance of May 31, when the Spanish ship Colon was bombarded as she lay in the harbor of Santiago. As on yesterday Mr. Hanna spoke in calm and dispassionate tones, and generally contented himself with outlining his conception of the purport of the testimony.

The understanding at the beginning of today's proceedings was that Captain Parker would follow Mr. Hanna in Admiral Schley's behalf, and while he gave no definite intimation as to how long he might speak, it was generally supposed that he would conclude today, allowing Mr. Raynor to proceed tomorrow.

Admiral Schley reached the court room at an early hour, and his friends were gratified to find that the severe cold with which he suffered yesterday had greatly improved.

Mr. Hanna briefly reverted to the cruise of the flying squadron from Cienfuegos to Santiago for the purpose of showing that neither the Vixen or the Merrimac had been the cause of the delay on that voyage.

Mr. Hanna concluded his speech at 2:25 p. m., having spoken about four and a half hours. He said that he considered the inquiry a serious proceeding and the question involved most important, and concluded with thanks to the court for its attention and to counsel for courteous treatment.

Captain Parker then began his address in support of Admiral Schley. He stood at counsel's table and spoke in clear and distinct tones. "I doubt," said Captain Parker, "if the naval history of the world presents or ever has presented a case of the importance and character of that in which we have so long been engaged. I doubt if a tribunal more exalted in the character of the persons who compose it has ever sat in judgment upon a brother officer. I doubt if an officer, with the lifelong character and standing and conduct that Admiral Schley has always displayed was ever called upon before to ask an investigation of his conduct as a victorious commander of a fleet."

FOUND BODY IN A BARREL

MAN MURDERED AND THROWN ON CHICAGO DUMP.

Body Identified as That of an Italian Laborer—Death Likely Result of a Vendetta.

Chicago, Nov. 5.—The body of a man about thirty years of age, whose head had been almost cut off, was discovered in a flour barrel on a strip of prairie near Rice street and Western avenue early today. The victim's feet were securely bound together, and the body doubled in a sack, from which it was apparent that his sinner or slayers had experienced difficulty in forcing the body into the barrel. Beside the wound in the neck the face had been gashed and disfigured.

Two laborers discovered the body. They immediately notified the police, who, after investigation, advanced the theory that the man had been murdered last night. The victim is believed to be Antonio Napoli, who, with twenty-five other Italian laborers, reached Chicago last night from Iowa Center, Iowa. Napoli cannot be found. The address, "Salvador and Luigi M. Nigro, 402 1/2 Clark street," was found on a letter in the dead man's coat. On this firm's books was found the name "Antonio Napoli," and his address was given as "Box 453, Livermore, Iowa."

In one of the pockets of the clothing was found a silver dollar. Chief of Police O'Neill says he believes robbery was not the motive for the crime, but the man had been the victim of some vendetta.

Later Rocco Ountre, a saloonkeeper, identified the body as that of Antonio Napoli, whom he had not seen since Napoli left Chicago a year ago. He said that probably after his arrival last night Napoli had gone to make the rounds of his old haunts and had met some enemy.

The place where the barrel was found has been used for years as a dumping ground. Twelve years ago it furnished another murder, which has never been cleared up. The victim of this former crime was Amelia Olson, a domestic.

After an investigation detectives declared that the murder had not been committed where the body was found, but that the gruesome burden had been brought to the spot in a wagon. The barrel had been secured at both ends, but in dumping it from the vehicle one of the heads had been knocked out.

CHEMICAL CATHARTICS

Scrape, Irritate and Derange the Stomach and Intestines.

The most expert chemists in the world can at best do no more than imitate nature, and in most cases even these painstaking scientists make a very crude job of it. In a state of nature man goes to nature herself for his medicines. Roots, herbs, fruits, the waters of different springs provide him with his tonics and laxatives, his curatives and correctives. But most of us live very far away from a state of nature and in trying to prepare substitutes for her remedies we very seldom catch her formulas.

Alma-Bromo is a tonic and laxative we are all very apt to go wrong. We eat, of course, composed of our skin by scraping it off with a knife, but we know that soap and water are vastly better. We can also scrape out our stomach and bowels by means of chemical cathartics—pills, tablets, powders, etc.—but the effect is even worse than scraping off the dirt from the skin with a knife, and you can never remove all the dirt with either method.

Nature, in her own way, deep down in the earth, stored up centuries ago all the elements needed for humanity for the preservation of health and the elimination of disease. Many years ago the chemists of the world discovered the elements of health and life, and produced Alma-Bromo. Alma-Bromo is just the form which nature intended her remedy to be used. Effervescent, cooling, pleasing to the taste, Alma-Bromo salt acts as a gentle laxative, thoroughly cleansing the stomach and bowels, increasing the action of the liver and the stomach, and toning up the whole nervous system through the form of bromide which it contains. Cures Indigestion and Constipation; gives a healthy appetite.

Nature-made—pleasing to the palate—gratifying to the whole body.

INJURIES RESULT FATALLY

HARRY L. MORITZ DIES FROM CONCUSSION.

Was Hurt in a Runaway Accident Last Tuesday—Other Deaths and Funerals of the Day.

Harry Moritz, of 160 Washington boulevard, died at 8 o'clock last evening from concussion of the brain, the result of injuries received in a runaway accident last Tuesday. In company with Bert Stauffer Mr. Moritz was out for a drive on the day named, when their horse became frightened on Elizabeth street, near the pumping station. The buggy was overturned and the occupants were thrown violently to the ground, Mr. Moritz striking on his face.

He was conveyed to his home in an unconscious condition and but for a few minutes on Wednesday remained in a state of coma until his death. The fall caused concussion of the brain and death resulted from the formation of a blood clot on that organ.

Mr. Moritz was thirty-five years old and leaves a wife and two children. He is a son of John M. Moritz, his mother having died several years ago, and he was the only child. Deceased was very well known in Fort Wayne, and was for a number of years steward at the Avelline hotel during the time his father owned an interest in that hostelry. The remains will be shipped to Crestline, Ohio, on Thursday morning and will be interred at the Cregline cemetery.

IN JUSTICES' COURTS.

It is not probable that the assault and battery case preferred by Anna Bickford against her husband, William Bickford, in France's court, will ever come to trial. Mrs. Bickford yesterday afternoon secured a divorce and this morning the two parties to the suit met to divide their household effects and clothing. Mr. Bickford refused to go alone, saying that if he did his ex-wife would swear that he had abused her, and he accordingly took Officer Dickson with him to see that he committed no breach of the peace. The division was made without trouble and the Bickfords parted on as good terms as divorced people could be expected to be and it is likely that the criminal proceedings will be dropped.

A saloonkeeper named Dierstine, doing business on Broadway, was fined \$1 and costs by Justice Huser for assault and battery on "Shorty" Gross.

S. W. Stirk circle, Ladies of the G. A. R., will give a tea Thursday afternoon at the home of Mrs. Rose Soely, 195 Sherman street.

THE MARKETS.

Chicago, Nov. 5.—December wheat opened a shade higher at 71 1/2c on higher cables with a fair commission house demand and very little offered in the pit. Trade was not large, but in sympathy with the firm tone of corn December rose in the face of large receipts and sold early at 71 1/2c. Toward the end of the first hour the market broadened somewhat and the outside demand improved. There was some changing of December for May and these two deliveries stood about 3c apart. Local receipts were 212 cars, 3 of contract grade. Minneapolis and Duluth reported 919 cars, making a total for the three points of 1,131 cars against 1,109 last week.

Strength in the corn pit, reports of Russian and Argentine shortages and the removal of the Mexican import duty on wheat influenced a steady advance in wheat, December closing strong, 1 1/2c higher, at 72 1/2c.

December corn eased off at one time to 58 1/2c@58 3/4c, but renewed covering brought a firm close, 1/2c higher at 59 1/2c.

Corn continued in its upward trend of the past few days, buoyed up by improved cables, and December opened 1/2c@1/4c higher at 58 1/2c to 59c. At the outset there was as much of this cereal offered as was wanted, commission houses buying and the crowd selling. Receipts continued light and prices went west well up. It was not long before the crowd in the pit found that corn was scarce and shorts had to buy back the lines they sold early. Added to this was a good outside demand which brought December up to 59 1/2c. Receipts were 143 cars.

There was little doing in oats, December opening unchanged at 37 1/2c. Trade was narrow, but on the corn bulge December sold up to 37 1/2c@37 3/4c. Receipts were 382 cars.

Provisions opened heavy on lower hog market, but recovered quickly on a fair local demand. Offerings were small and though business was largely professional January pork, which opened 15c lower at \$14.62 1/2@14.65, sold back to \$14.75; January lard 2 1/2c down at \$8.47 1/2 and reacted to \$8.52 1/2, and January ribs 2 1/2c down at \$7.60 and advanced to \$7.62 1/2@7.65.

NEWS OF THE SHOP AND RAIL

BRAKEMAN WELCH NARROWLY ESCAPES SERIOUS INJURY.

Henry Heine, the popular boiler-maker in the Pittsburgh round house, now refers to a handsome new gold watch when he wants to know the time of day. The ticker was presented to him last evening by a number of his relatives and friends as a token of the regard they entertain for him and as a memento of his forty-sixth birthday, which was yesterday. The party was a surprise to Mr. Heine, and while it proved to be a most enjoyable affair, a little incident occurred which was not taken into consideration when the affair was planned and which came near upsetting the whole thing. In the afternoon Mr. Heine was sent out on the road to repair some machinery and he did not return until 10 o'clock last evening. In the meantime all the guests had assembled and were awaiting the coming of Mr. Heine. When he appeared on the scene the presentation program was rushed through with all possible speed and then the host and his uninvited guests sat down to a feast prepared by the ladies of the house, and later had one of the most enjoyable times of their lives in playing games and participating in the many amusement features introduced. Mr. Heine is one of the best fellows on earth and his friends always respond to an invitation to call at his home, and last night there were many of them there.

ON AN INSPECTION TOUR.

John Grafton, a foreman in the Pennsylvania shops at Wellsville, is in the city today looking over the company's shops and taking notes of the methods of conducting the work therein. He will visit all the company's shops, both on the northwestern and southwestern systems, on a similar mission. While in this city Mr. Grafton is the guest of Boiler Foreman Frank Sarver and his wife.

A BRAKEMAN INJURED.

Brakeman W. B. Welch, of the Pittsburgh, fell headlong from a box car to the front steps of a caboose yesterday while the train was near Adams and running at the rate of twenty-five miles an hour. He was brought to the city and Dr. Stemen attended him. Mr. Welch's injuries are some pretty painful bruises and cuts on the head and shoulders. He resides at 214 Calhoun street.

A QUEER EXPERIENCE.

Pittsburgh trainmen tell a queer story about one of the men who was in the wreck at Donaldson hill last Friday. Ed Obenchain, it is stated, was caught in the wreckage and was found unconscious by the rescue party. To all appearances he was dead, and the men who discovered him believed so. They pulled him from beneath a pile of timbers and laid him on the ground at the road side. In a moment Mr. Obenchain got up, looked at his hands, stretched his arms aloft, lifted his feet one at a time, and carefully examined them, and then said: "Well, boys, I'm not hurt," and he was not. He received a blow on the head which rendered him unconscious for a short time. This is the story as told by the men who were on the scene and helped to get Mr. Obenchain from beneath the wreck. Early news from the wreck mentioned Mr. Obenchain among the missing.

FOR CHILDREN

Nothing, that comes in a bottle, is more important for children than Scott's emulsion of cod-liver oil. And "important" means that it keeps them in even health, on the highest plane of physical life.

"Do they live on it then?" No; they don't touch it, except when they need it.

"When do they need it?" Whenever they show, in whatever way, the least disturbance of even balance of health. It is not for acute diseases, with some exceptions; it is for a slight falling off from first-rate condition.

It is to be used as a food, whenever their usual food does not quite answer the purpose of food.

We'll send you a bottle to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

Bob, who recently married a most estimable lady at Butler, and he bears that gentleman's best wishes to all his old friends in this city.

Knows No Distinction.

Rich and Poor Alike Suffer From Catarrh in this Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval

to the new internal remedy, Stuart's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.

One well known catarrh specialist, as soon as he had made a thorough test of this preparation discarded inhalers, washes and sprays and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh whether in the head, throat or stomach.

Dr. Risold says, "In patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh, I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found, because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hacking, coughing and expectorating.

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste, are convenient and always ready for use, as they can be carried in the pocket and used at any time as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Gaiacol, blood root and Hydrastin.

All druggists sell the tablets at 50 cents for complete treatment.

THE NEWS OF THE POLICE

The monetary was broken at police court this morning when Judge Loutit held a brief session but long enough to send two unfortunate over to the hotel de Stout for specified periods.

Henry Miller, who operates on the alternating system, alternating between the jail and the police court room, was up again for vagrancy. He was found sleeping in a shed in Nebraska last evening and was brought in out of the cold. He is supposed to be demented, although he is apparently rational at times. He is armless, but is a most persistent beggar. He was sent over fifteen dollars' worth and an effort will be made at the expiration of his term to take care of him at the county poor farm.

Henry Wolf, of New Haven, came to town yesterday and gave an imitation of how a man drinks whiskey at New Haven. He mistook his capacity and when he reached the south depot to go home he was so drunk that the officer on duty there was obliged to run him in. He complained of a bad headache this morning and the judge said that he thought a rest of about eleven days would probably do his head some good. Mr. Wolf climbed into the wagon and was spirited away.

S. M. Foster reported that someone had entered his waist factory on Sunday with burglarious intent, but so far as he could learn had taken nothing of value.

Manager Welty of the Fort Wayne box factory, reported that somebody had stolen his bicycle yesterday afternoon between the hours of 3 and 6. He left a description of the wheel with the police.

The contractors laying the tracks of the Southwestern Traction company on Taylor street are greatly annoyed by boys or others who steal their red lights placed about the work at night. Three lanterns have been stolen since Sunday.

ABOUT THE CITY HALL.

The board of works had a short and uneventful session yesterday afternoon. Tom Shook asked permission to build his own sidewalk at the corner of Jefferson and Griffith streets, and wanted to build it next to the street curb, with the lawn next to his lot. The board did not act upon the matter, but took his request under advisement. The only other business was the allowing of a few bills.

Councilman Sordlet's committee on interurban terminals will meet this evening at the city hall.

Assistant City Engineer McKeandry is confined to his home from injuries received several evenings since by a fall sustained in alighting from a street car.

John Baker has been granted a permit to build a \$1,500 house on West Main street, and Aime Racine has received a permit to erect a house of equal value on North Harrison street.

WHAT FORT WAYNE PEOPLE SAY OF IT.

Any itchiness of the skin is annoying.

Little danger in itching skin diseases. But they make you miserable. Doan's Ointment is a never failing cure.

For piles, eczema, all itching troubles.

Fort Wayne citizens endorse it. Mrs. M. H. Huggard, of 152 High street, says: "I used Doan's Ointment, sold at Meyer Bros. & Co.'s drug store, for many different things, and I always found it to give a quick relief and soon effect a cure. I had something like the hives during the summer and I could find nothing to help them. They itched so where the skin was affected that I could not keep my hands off. I applied Doan's Ointment; it quickly disappeared and has not returned. I also used this remedy on a very severe cut on my hand and the way it cured that cut like magic."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

The Hot Blast attachment takes in the cold air through a duct at the rear of the fire pot, the heated air being discharged in a circle at the top of fire pot, over the fire, thus consuming all the gases and products of combustion.

We will give an exhibition of this stove and show it in operation in front of our store on Wednesday, Nov. 6th.

Richard Croker announces that he will now retire from politics. That is to say Croker is going out of business.

The mathematician who figured out a possible democratic victory in Ohio evidently was multiplying when he should have divided.

Those who have been persistently asking Mr. Croker "where he got it" will save their own time and the great man's temper by quietly examining his neck.

One of the best remembered sayings of Abraham Lincoln is: "You can fool some of the people all the time and all the people some of the time, but you can't fool all the people all the time." That philosophy "goes" every where but in Philadelphia.

It was a great victory in the city of New York—a colossal triumph of decency over dishonesty and corruption—but the people there should be counseled by history. If the tiger comes back it will be with empty belly and ferocious appetite. The character of Mayor Low's administration alone can prevent a return of Tammany. We believe he will be equal to all that is required of him.

One of the singular results of yesterday's elections is the triumph of the union labor candidate for mayor in San Francisco. We believe this is the first instance where the labor issue has succeeded in a large city, and it is due to the industrial troubles that have disturbed the Pacific coast metropolis for many months. The workmen were brought together on issues purely their own, and the result illustrates the political power the workmen can wield when they vote as they talk.

THE ELECTIONS.

Aside from the overwhelming revolt of the people of New York against Tammany the results of Tuesday's election do not enlist unusual interest. The expected happened in nearly every instance. Increased republican majorities in Ohio and Iowa doubtless were rather a surprise to republican themselves. The strength the party in power displayed in every state not admittedly

democratic shows pretty clearly that the tide has not yet in democratic waters.

It is much to be regretted that Pennsylvania and Philadelphia could not redeem themselves from the grasp of gang rule. But so completely are both the commonwealth and the city under the domination of the Quay element that redemption seems hopeless.

In Maryland it appears at this writing that the legislature will be democratic on joint ballot, assurance of course, that Arthur P. Gorman will go back to the United States senate. Notwithstanding the new franchise laws which deprived thousands of negroes of the ballot, the democrats seem to have had a close call.

TAMMANY DRIVEN OUT.

The civic conscience was aroused from its lethargy in New York yesterday and decency triumphed over corruption and villainy. The metropolis of the nation, reeking with the filth of official depravity, has resolved to cleanse itself. Croker and Tammany, the embodiments of all that is vicious and villainous, depraved and dangerous in our civic life are hurled from the high seats of power from which they have directed the misgovernment and plundering of one of the earth's greatest cities.

The election of Seth Low over Edward M. Shepard is not a party victory. Low stood for the ideas of all the civic elements that were opposed to Crokerism. The victory is the more notable for that Croker sought to escape the disgust and anger his misrule had raised to curse him by putting up to beat Low a man who in character and fitness was Low's equal. But the people could not be fooled nor the tide of revolt stemmed. Not even Shepard could give Tammany respectability. Without doubting that Shepard would make an admirable mayor, the aroused people were not to be swerved from determined purpose to punish Tammany.

It is a great responsibility that has fallen upon Seth Low and a great opportunity that has come to him. To purge New York of the foulness that has festered so long and so deep is a mighty task. But we believe him equal to it. He goes into office unhampered by partisan obligations. He was elected by a coalition that represented all political parties, and in the broadest sense is the choice of the people he is called to serve. Such a triumph of public conscience over organized and entrenched corruption calls good citizens everywhere to courageous exercise of political independence, the one thing which always has and always will vouchsafe the perpetuity of our civic institutions.

ADVERTISING PAYS.

Advertising pays—sometimes. It all depends on the medium employed. A handbill on an alley fence isn't a very good medium. The best medium is one that comes under the notice of everybody. The Sentinel is such a medium. Consider this instance: A couple of days ago a gentleman in this city advertised in The Sentinel want columns that he had a house for which he desired a tenant. This morning the advertiser took from The Sentinel counting room something like a score of responses to his advertisement. Of course, he will get a tenant, but he will get more than that. He will get the pick of a score of persons who want to be his tenants. This is not an isolated instance. It is chosen to illustrate because it is recent. The Sentinel circulates 6,500 papers regularly inside the city. Each paper circulated brings your advertisement under the eyes of probably half a dozen persons. When you have used The Sentinel you have given the widest possible publicity to your announcement. In short, you have advertised.

ELOQUENT TONGUE

OF HAYNOR DEMANDS JUSTICE
FOR ADMIRAL SCHLEY.

MARYLANDER BEGINS SPEECH

PAYS COMPLIMENT TO LEMLY
AND HANNA.

SHORT SESSION TOMORROW

ADMIRAL DEWEY TO REMOVE
HIS WIFE TO CITY.

Washington, Nov. 6.—The entire time of the Schley court of inquiry today was devoted to argument in Admiral Schley's behalf. Immediately after the court convened at 11 o'clock this morning Captain Parker proceeded with his address and he was followed without loss of time by Hon. Isidore Raynor, Admiral Schley's chief counsel. Captain Parker took up the discussion of the subject where he had left off yesterday, considering in turn the reconnaissance of May 31, the coaling question and the battle of July 3, including the loop of the Brooklyn. His address of this morning was comparatively brief. Mr. Raynor began his speech with a discussion of the second specification of the precept relating to the circumstances attending the movements of the flying squadron off Cienfuegos, and then proceeded to consider very briefly the cruise from Cienfuegos to Santiago, which is covered by the third specification. He passed from these specifications to the sixth, and went from that to the end of the list, before he returned to specification one, reserving that and the fourth and fifth specifications for the close of his argument. These latter specifications related to the Santiago campaign and to the charge of disobedience of orders, and were reserved for the latter part of the speech because of their importance. The audience today was larger than on yesterday. There were 1,500 applications for reserved seats today.

Captain Parker talked for twenty-five minutes and was followed by Mr. Raynor. He maintained that the blockade of Santiago was effective. He defended Commodore Schley's reconnaissance of May 31, saying he had acted wisely in determining the actual conditions. In this line of policy he said that Commodore Schley's conduct was paralleled by that of Admiral Dewey in Asiatic waters when the latter remained for several days in Mirs Bay. Regarding the loop made by the Brooklyn Captain Parker declared it was the wisest movement that could have been made. All talk about the Brooklyn going to the southward he characterized as "moonshine." "If the Spanish gunners could have shot at the Americans did," declared Captain Parker, "Admiral Schley, instead of being on trial as he is today, would be in a sailor's grave."

Captain Parker concluded with a glowing tribute to Admiral Schley.

MR. HAYNOR BEGINS.
Mr. Raynor began his argument at 11:25. He paid a compliment to Judge Advocate Lemly and his assistant, Mr. Hanna, for the "most judicial impartiality with which they have managed this case."

Mr. Raynor made a plea for the consideration of questions from what was at that time Commodore Schley's point of view. "Let us," he said, "put ourselves in his place and see what the circumstances were. We all know now what it would have been wise to do."

A SHARP TILT.

While Mr. Raynor was discussing the testimony of Lieutenant Commander Potts before the Schley court of inquiry this afternoon, he said that the commander had said that he was always "scared in battle." Captain Lemly protested against this language and a sharp verbal encounter between the two occurred, in which Captain Lemly said that Mr. Raynor was "unreliable."

"You," replied Mr. Raynor, "are not only unreliable, but you are offensive."

Admiral Dewey interposed to say that the court would consider all the testimony; that Lieutenant Potts had said that he was scared, but that Mr. Raynor had stretched the testimony a little. There was, however, no occasion for ascerbicity. Captain Lemly then said he regretted having made the remark and Mr. Raynor continued his speech.

Admiral Dewey announced privately before the opening of the court today that there would be no morning session of the court tomorrow. Mrs. Dewey has been indisposed recently and the admiral will devote the forenoon tomorrow to removing her from their home in the suburbs to their city residence.

of an officer. This, he said, he had no right to do.

"And you," replied Mr. Raynor, "have no right to traduce the reputation of Admiral Schley."

At 3:25 Mr. Raynor closed his argument for Admiral Schley. Admiral Schley was in tears as he delivered his peroration. A wave of applause swept over the room as Mr. Raynor concluded. The court then adjourned until 2 o'clock tomorrow.

AGAIN FOR SAMPSON.

Washington, Nov. 6.—E. S. Theall, acting on behalf of Clayton & Campbell, who was retained by Admiral Sampson to look after the latter's interest before the court of inquiry, today sent a letter to the court protesting against the inclusion in the record of certain statements deemed to reflect upon Admiral Sampson's conduct at Santiago. The letter is addressed to Admiral Dewey, as president of the court, and is as follows:

"1. While fully cognizant of and abiding by the decision of the court that Rear Admiral W. T. Sampson, U. S. N., is not a party interested and that notice will be given the admiral when the court so considers him, I have the honor to make the following request on behalf of the admiral.

"2. Arguments by counsel being matters of record in the case and receiving wide circulation with the public, it is respectfully submitted that argument by counsel upon matters regarding any official acts of Admiral Sampson which he has not been permitted to defend, and which the court by an expressed ruling has excluded from the evidence in the case, is eminently improper, and it is respectfully requested that the statement made by counsel for Admiral Schley in argument yesterday at the close of the afternoon session to the effect that Admiral Sampson permitted the Spanish cruiser Colon to lie in sight without attack in the harbor of Santiago, Cuba, from the time of his arrival on June 1, 1898, to about 10:35 a. m. of that day, be either stricken from the records in the case, or evidence be introduced by which Admiral Sampson may be permitted to defend such a grave accusation involving his honor as a naval officer.

"It is further most earnestly and most respectfully requested that counsel in the future be restricted to the evidence adduced as regards the official acts of Admiral Sampson, and not be permitted to include those matters expressly ruled out by the court and which the admiral has not been permitted to defend, thereby preventing a manifest injustice, and the induction of accusations against the admiral in the record by indirect means, which was deemed improper by the court by direct means."

THE NEWS OF THE POLICE

When Judge Louttit ascended the dais this morning he wore a frown which boded no good for Mike Sullivan, who was the only prisoner before him. Mike was charged with a variety of offenses, but was tried on one of trespass. The judge ordered the clerk to look up Mr. Sullivan's record and he reported that the gentleman had been sent over four times in ninety days. That settled it. "It's fifty and costs," said his honor, "and the next time I'll double it." No wonder the cold chills chased each other up and down Mike's back as he heard this announcement, because the "next time" will be just as soon as he gets through serving this morning's sentence. The other two charges pending are indecent exposure and public intoxication. Mike called at a lady's house on East Main street yesterday afternoon, forced his way into the sitting room and grossly insulted her. She called an officer and the arrest followed.

A band of Mexican gypsies are camped near the Kaylor brick yards south of the city limits. They were notified to move and this morning reported that they would get away some time today.

W. F. Geller reported that a handsome wheel had been left at his Broadway store by some absent-minded customer.

Jacob Bill, the Brighton avenue druggist, reported to the police that a peanut slot machine had been stolen from in front of his store. He expressed satisfaction that the Brighton avenue hoodlums had not also stolen the front.

Mrs. Pyle reported the loss of a pocketbook containing several dollars on Barr street yesterday.

Jacob Brown, a feeble minded young man, living with his parents at 67½ Hayden street, was Tuesday reported missing. He has probably wandered away, but at this writing the police have been unable to locate him.

K. OF P. SOCIAL SESSION.

The first social session of Fort Wayne lodge, No. 110, K. of P., was held last night at the lodge rooms in the Odd Fellows' building, corner of Wayne and Calhoun streets. It was largely attended, there being considerably over a hundred guests in attendance. The entertainment offered by the committee was a program affair, but was in no sense formal, and the guests were requested to be at ease during the evening. The event of the evening was the appearance of Rabbi Frederick Cohn, who related the old story of Damon and Pythias in his own inimitable way and made his illustrations of fraternalism and universal brotherhood in conformity with the story. The reverend gentleman held the almost breathless attention of his auditors for half an hour and when he had finished the large audience testified its appreciation of his masterly effort by a rising vote of thanks. Oliver Phelps, of the electric works, sang the Armourer's song from "Robin Hood" with such pleasing effect that he was forced to respond to an encore, and Gus Hobbrook, always popular on such occasions, sang a couple of comic songs, which greatly amused the audience. The other musical features were music by the K. of P. band, a brass quartet and a pretty little cornet solo by Perry Shober. It was the young man's first public appearance as a soloist and the creditable manner in which he acquitted himself was very gratifying to his friends. Brothers McKee, Donnell, Wallace, Smith, Heaton and others spoke briefly, "Auld Lang Syne" was sung and the session was adjourned. The program was lengthy, but such interest was manifested throughout that not a few were willing to miss the last car in preference to missing any portion of the entertainment.

George E. Hiet, formerly of Fort Wayne, now of Indianapolis, is in the city calling on old friends.
